Remember, conjunctions create action. They appear like a sudden impetus, compulsion, or a shot of a gun at the start of a race. When two or more planets are lined up one in front of the other, they give the appearance of a blending of the two energies.

They become more powerful when Jupiter is part of the conjunction, because whatever Jupiter touches it maximizes its outflow of influence.

Jupiter can also involve legal, bills passed, laws put into place, and also bending social opinions and maintaining social environment and order such as the reigning of the population by inspiration, rules, laws or psychological tactics.

On the other hand, it can inspire, code, clue in to higher order, ethics, justice, and a powerful cycle of the beginning of amazing social freedom.

Pluto is consolidated power. It is experienced as a deep transformative power which re-organizes, powerfully consumes, transforms, molds and moves matter, money, economic systems, agencies, moves marriages, families, systems, businesses or laws into another situation, identity or form than how it was before.

Pluto has its own internal power propelling its energy into a whirling relentless movement, targeting anything that has been a system of power and structure, in a big way....and Pluto in Capricorn does it through all systems, government regulations, major areas of economic power, agencies and organizations.

Pluto can act as one person making decisions which override all old ways or systems. Pluto in Capricorn conjoin Jupiter deeply and permanently will change the way people think in their businesses, schools, education, finances and press everyone to take action ( that conjunction ) towards streamlining and transforming anything out of sorts and not functioning well, into a higher level of functionality.

In times of normal ease, it's a simple helpful cultural upgrade of some sort...in times like these which we are faced with now, it could be serious enforcing of many forms of regulations mandated, but also positive actions taken through passing certain laws which block and remove corruption. Globally, it changes culture on the dates above.
