March 2020 – Dec 2022

C = Conceptional U.S. Chart 1776

N = Natal U. S. Chart 1789

## *PART I*

***Below are the strongest times for looking forward to a return to normal life. ( re: Covid-19 and other U.S. and Global activities ) are in RED throughout the article.***

*The top transits we are receiving at this time create a unique situation where we can expect periodic disruptions of one sort or another occurring throughout 2020, 2021 and 2022. When there are breaks in the hard transits, and good cycles are active, it's good, get much done, get your life in order, prepare*

*We can be productive this year with experiencing personal, business, financial progress, reaching family goals and producing results, however, it's a time to save, prepare and continue to live as if in two worlds - Productivity and Preparedness..*

*Cycles of recovery and re-emerging from the pandemic period begin **April 12 – 25 2020.***

*The dates for best prediction for getting over the heaviest part of these hard periods we are in, and restoring employment, health and social recovery **are in RED.** As you read through some of these cycles, you'll understand what we're dealing with, and how we're fighting for a higher way of life, but the corruption needs to go before that can happen.*

## *LETS BEGIN*

**Transiting Uranus trine the Natal U.S Ascendant - April 12-20 strongest then continues up to May 12, 2020.**

This cycle can cut us free from entanglement and dependencies with challenging relationships over products, and other contractual arrangements made in the past. It can feel as if a curse has been shattered so we can finally see. It has the ability to liberate us.

It increases health of body and national identity, liberating people from physical medical ignorance, bad habits, negligence of health, unproductive addictions or the embarrassment of being an American and past build up of harmful attitudes and negative image.

Uranus liberates the people from stigmas, damaging projections and judgments and from ignorance and destructive physical circumstances. It replaces the critical negative image with inspiration and providing the proper action focus and information in order to be free. It releases discernment and motivation to self improve, and rejuvenate the nations' health, boosting it to its greatest potential. It will wake up many people to see impartial truth and facts. It is a reality transit.

### April 20 – May 12, 2020

Nov 15- Dec 10, 2020

Feb 5 – 26, 2021

### Transiting Uranus sextile Conceptional U.S. Jupiter - ( began June-August 2019 ) Peaks on April 7-15, 2020 The last cycle holds the victory.

Similar to above transit. (Jupiter rules U.S. C Sag Ascendant.= body, identity, self image and health of country...breaking out, breakthrough, cut free from oppressive cycles and historical restrictions and lack of knowledge. )

Opportunity to enhance wisdom is the primary purpose of this cycle. It can also restore health and prosperity of a country. Like the one before, it is an exciting promising transit filled with epic opportunities for financial growth, educational expansion, improvement in so many areas of our country's activities, and all those who take advantage of this nations' positive cycle here, can benefit in some way.

Uranus sextile expands optimism and health of population, increase positive pro-active strategies to implement greater freedom in many areas, especially in dealing with all foreign negotiations, foreign relationships, trade agreements, increasing protection of country's economic interests and implementing plans to begin new cycle of bringing industry home. At the same time, it creates greater honesty and transparency, extending a hand of truth and friendship towards others. It deals fairly with humanity in many ways.

It intensifies cycle of awakening to larger scope of global activities and the absolute truth behind situations from the past, as Jupiter rules higher wisdom, education, expanding vision and awareness of larger global scope of things not seen before. It builds healthy relationships. Again, this was the strongest between June-2019 up to April 7-15, 2020

### Transiting Venus retrograde launching a series of helpful aspects to the U.S. Natal and Conceptional Charts:

#### April 22 – July 28 2020

**Venus retrograde in Gemini** ( Gemini rules the love, the healing, rejuvenation of blood, lungs, circulation, oxygen, nervous system – also assists with the facts, information, networking science data – increases accuracy of news, information necessary to understand origins of many things personal and global. Increases good fortune with wisdom everywhere. )

### **But First...**

#### The Transit of Venus is square Transit of Neptune

*( This is in the solar system, not the U.S. Charts:)*

From April 20 2020 to May 23, 2020 **peak between May 8 – 16** will be the cycle of confronting dysfunction, confusion and ambiguities with social direction for our country.

This cycle creates an atmosphere of confusion, forever questioning, seeking answers, finding it difficult to land on just one solution or conclusion. It propagates insecurities, fears, apprehension. It symbolizes endless speculations and having one's mind and emotions out of control, subject to worse case scenarios and speculating blame or fault at situations and people that have no part in the problems....it sets a theme for creating a general mood among the people all over the world with these particular issues on their minds: In a positive sense, finally the world is asking questions as they are now desiring to know how this or that situation, crisis, event could have ever happened, and what do we need to learn in order to confront the problems from sneaking up on all of us ever again.

### **A Deception Is Suspected – Secrets – Hidden Information**

The people are not getting one unified message from any one news source in order to know what is going on. Truth brings comfort to people and helps combat challenges.

These mixed messages, or withholding of key information, is part of the Venus square Neptune. However, Venus is not Mercury, it's typically not about News and Communication because Venus is a heart/emotional and intuitive planet. It also rules social networks, social unity or human bonding and human social values, what makes people feel loved and happy. What if Venus retro in Gemini, the sign of facts and communication were actually confronting Neptune confabulation and confusion at this time?

So this cycle might scramble and diffuse key financial organizations who are filled with Neptunian nervousness as they speculate what is going to happen next with economic changes ahead. It can impact social networks which are negative Neptunian activities, confuting their typical agendas.

It could also be a clash between an intuitive intelligence we all possess versus the confusing messages we're getting from authority figures and their platforms.

The confusion with certain agencies not supporting, allowing or distributing Nutraceuticals or proven medicine in order to assist in recovering from the virus. This and other confusing messages regarding factual numbers of the infected, deaths, remedies, medicine antidotes being delayed, cautioned against or withheld, etc..will be challenged during this Venus cycle. We challenge the socially confusing narratives, opinions and nebulous or erroneous messages throughout this period in order for Venus to do its beautiful work on restoring our socially prosperous and normal life again.

Confusion in general- why the severe global shutdown narrative when suspicion is rampant that there are ongoing Neptunian activities actually being carried out in secret, simultaneously, multi-levels of operations occurring globally with several powerful end goals to reach.

This cycle of Venus is felt more than actual verbal confirmation out in the open. It is a body/organic/emotional state, an intuitive connection with each other that is in the know, rather than an intellectual analysis of events. The body of heart felt people are experiencing a sense of what is happening, more than receiving any one given piece of news as fact. At the least, people are voicing " Something weird is going on."

## U.S. Natal and Conceptional Charts effected by Venus Retrograde April – July 2020

### How to read the table below

*Venus retrogrades have an ability to release a reprieve from harshness, bring more love, intuition, spiritual guidance and confidence again. Venus enhances creative thinking, and stimulates the heart. Venus can bless us with a new kind of money system but not released in full yet, as Venus is in square to Neptune ( secrets).*

*Venus retrograde can move us through unusual states of emotions, enhancing love and inner peace in order to move forward with our creative projects or relationships.*

*Venus retrograde expands our abilities to move out of the normal 3<sup>rd</sup> dimensional and astral world. We can more easily enter the etheric realm, the higher dimensions and the mind, love and protection of the Divine Masters, such as Morya for example. Venus inspires us when it turns retrograde.*

*Even though there is a Venus square to Neptune in the solar system, the table below show positive Venus aspects occurring in the U.S. Natal and Conceptional charts which bring positive moods and outlooks in every day life . Follow the dates. Let's do an experiment and pay attention to passing through these moments in time, and see if there are not breakthroughs of information coming from reliable news sources and official departments announcing certain positive information to help bring a new day putting our lives back to normal in some form. Some could be financial aid, some numbers dropping from those infected, some news could be regarding other global breakthroughs which socially ( Venus ) send some form of stunning facts to the people resulting in a comfort..*

**These Venus Retrograde Transits below are affecting the U.S. Charts: The ones in RED reveal the closest times of relief for us all.**

These dates are strong positive social breakthroughs, confidence experienced and excitement of hope and life getting back to normal. Each date progressively can bring more positive attitudes and social freedom as the weeks go by

The first dates, such as **April 7-12**, should be the first signs of good news and the beginning of some form of social build up from businesses owners to get back into work and productivity again.

As the weeks continue, it will become almost impossible to curtail the domino effect of impatience to get back into the normal way of business and life again. We'll see!.

***It would be helpful to note what house Venus retrograde is in within your own natal chart.***

### Transiting Jupiter at 24\* Capricorn square N Mercury at 24\* Aries

1<sup>st</sup> phase: March 28 – April 4 peaks, **leaving April 10.**

Three moments in time throughout 2020, where political, authoritative, agency and spokespersons' public decisions, communications, ideas and sharing facts are not totally reliable as there are unknown factors, situations and activities that are not taken into consideration.

It's best to suspend any decisions or judgments you or others are talking about during these times. Just don't count on what is being said as absolute fact..

The information will change as the transit passes.

Be patient with certain information as we are not receiving solid facts at these times. There is much more to the story than being told.

This counts for all sides, all parties involved, no one has all the info, so making important decisions on behalf of the nation during these dates will most likely be premature and backtracked later to correct the errors. The Jupiter is coming from the 5<sup>th</sup> house of individuals who are the experts.

In the Conceptional chart of the U.S., the Jupiter is in the 2<sup>nd</sup> house of economic financial values opposing the U.S. Mercury at the exact same time. This cycle causes a stretching of knowledge,

stretching ones' view or perspective to allow foreign influence, opinions, expanding the possibilities involving financial and economic activities beyond a nations' practical good judgment.

## **Transiting Saturn at 0-1\* Aquarius oppose N Uranus at 1\* Leo in 11<sup>th</sup> house.**

**April 1 – 10, peaking on April 6<sup>th</sup> 2020**

Jun 1-18, 2020

Dec 15-28, 2020

The peak dates above are typically moments in time, where the greatest impact, emergency or challenge comes upon a person or nation. It indicates confrontation, realization and a call to action. Once the peak date is past, there is a reprieve, a slow down of intensity. As the peaks return, another cycle of necessary action is needed, until the last date is finished.

A strange time of unexpected emergencies and unconventional operations involving any of the situations or activities below.

It is a time where certain groups are expected to perform difficult tasks of handling challenging or challenged people or circumstances.

These unconventional unusual activities which need to be handled properly, are quite serious and require a certain expertise from skilled military or other agencies.

There could be electromagnetic, electrical, internet, cell phone disruptions in our every day routine and way of life throughout some of these dates.

Because the Saturn is coming from the 5<sup>th</sup> house, it emphasizes 5<sup>th</sup> house unique leadership capabilities, and could involve training, education, children, babies, or anything related to the need to step up courage, leadership and confidence in the execution of any emergencies or strategies.

It creates a frustration between the patience the population is required to have on lock down versus the period of time it's over and one is free to continue ones' life. It can put people in a social separation period or disruption while these global events are playing out yet waiting for the time when one can go back to work, engaging in business as usual and focusing upon generating income. Especially after **April 6-9. April 6- 9 will be the beginning of the most intense operations and will probably continue up through April 12 at least.**

*For it's as if the population is caught right in the middle of this split, and frozen, waiting for some sort of event to get handled on multiple levels so we can then resume our normal lives. This cycle will happen three times this year. ( Check top of this section for dates, and put them on your calendar, prepare.)*

Saturn oppose Uranus creates a push for an acceleration with advanced types of technology and the specialization required to perform.

Space technologies, satellites and advance tracking could be used throughout this cycle.

A Saturn in an opposition means certain teams or groups are organizing and need to handle a particular type of person/people and situations, and there is an end goal in mind.. This end goal can be wrapped up around Christmas 2020. It can target groups or types of people with some form of

disadvantage and handle the situation.

( When passing through Saturn oppositions myself, I have had to handle others' issues, which are defined by what planet Saturn is opposing. The U.S. Conceptual Uranus is the planet Saturn is opposing in this case.

You could say, "Well, why do you *have* to handle them? Why don't you just say no or walk away?"

It's because at the time it is occurring, you realize, you can't just walk away. If I don't do it, no one will, and it must be confronted, curtailed, healed, helped or managed...whatever the situation is. Because it's an opposition from Saturn, it puts a restraint upon me, and also requires a lot of special skill to manage the situation, AND protect the process so others don't interfere and mess with the hopeful end goal of this cycle. Typically it takes 9-10 months to play out, and at the end, there is a completion or closure experienced with this long process. It is always the most intense during the 3 peaks, as mentioned above )

The Saturn transit is potentially expecting the containment, the managing and handling properly of:

Uranus Descriptions:

- Rebellion

**Saturn places pressure** onto those in responsible positions to handle, manage any one or all of these activities above, throughout the dates below. It is an intense cycle requiring competence, talent and team work, group alliance in order to handle the challenges they face.

### **Transiting Saturn at 0\* Aquarius square C Hades at 0\* Scorpio**

**March 20 – April 10, 2020**

Jun 10-25, peaking June 18, 2020

Dec 10-26, 2020 peaking Dec 24, 2020

*Remember the strange and disturbing Transiting Hades conjoin the Transiting North Node, opposing the Jupiter, Pluto and Saturn in Capricorn and South Node back in Dec 17, 2019, up through February 2020? A few times it was reported in Stardrops and had me scratching my head. My attention kept returning to that transit, it bothered me, was unique and ominous.*

*I was sure there was some form of poisonous and destructive action coming from some source attempting to do harm to the population of the planet and it was in direct opposition to the stellium of planets in Capricorn including the south node at the same time...representing potentially the blueprint of a new system(s) to ensure a higher and more productive way of life brought into the physical.*

Now, Transiting Saturn is square the U.S. Hades. This is a checkmate upon the dark agendas and activities of hell slipping into our country and world. We'll watch this one throughout the year, and see how Saturn handles the blocking and shutting down of this portal of evil.

### **Transiting Neptune conjoin N Saturn at 20\* Pisces in 4<sup>th</sup> house**

**April 12 – 30 2020 peaking on 25<sup>th</sup>**

August 15-30, 2020

Feb 1 -23, 2021

An unprecedented time, once in approx 163 years. It offers a period of Mercy, Grace, Help and Sacrifices of some sort in order to HEAL a long term problem.

Individuals are able to fix Karmic Issues by making a sacrifice.

**This transit heals the inherent problem a country would have of neglecting the unfortunate in some capacity, turning its head to all negative Piscean activities by now doing something to fix it.**

The mercy and comfort can rain down upon all throughout this period, especially those who have been the most severely victimized.

A cloud of secrecy can surround these operations and activities and would permeate so many possible

situations at this time in order to heal them.

All these and so many more crucial social situations, could all be exposed and remedied in some fashion with the power of this Neptune, which not only brings a defender(s) but the remedy to the Neptunian underworld of all illusions and compromising deals and arrangements within the nation and outside of our country ( 7<sup>th</sup> house )

There may be an escalation of lies coming from those who have appeared as mini gods. ( Pisces saviors,)

In one way, it can feel like a dark time as the blatant lying escalates among certain people in the public eye, yet personally I and many feel spiritually accelerated, as if something huge is happening, and we're all energetically holding the balance for this great time we have now entered.

Certain present and former leaders in government and other corporate industries will be so transparent now, revealing their true priorities and agendas, not behaving as humane or concerned for the welfare of the people as we were told.

Their masks are off and when revelations come to the surface and a country must extricate themselves from a mess of a sociopathic type of people, the greatest shifts will begin throughout this cycle.

Neptune rules lies and deception, drugs and addictions and cartels and is found conjoining Saturn in the 7<sup>th</sup> house of our relationships with psychologically challenged and complex people with serious problems, impacting our nations' well being in some fashion.

**It can also reveal weak leaders who have never had the ability to truly confront this Saturnian karma of standing up to these psychopaths within and without our country. This is one of the nations true assignments.**

Neptune can rule viruses and this cycle does match the start of the Covid-19 February 2020, however, if one goes deeper, it rules deception, traitors uncovered who were hiding their activities for years. Whether it has been formulating bio-weapons right under our nose between these lab people recently arrested within our own country collaborating with other countries in order to assist in a destructive agenda or other equally awful arrangements, it's the non-accountability, delusions, lies, and intrigue promoted by certain types of individuals which have always been a karmic problem from the inception of this country and burdening the world.

Treasonous relationships might also be seen in this Saturn in Pisces in the 7<sup>th</sup>, so Neptune conjoining attempts to draw it out.

Extricating ourselves from an astral pit which must be recognized then discarded, never to enable and tolerate again, this would be the beginning of the process, starting with the Neptune conjoin Saturn in 2020.

Why did this happen?

How could we have not known about all these collaborations and payoffs?

Why is everything so messed up? Make a list- Neptune conjoin Saturn will be the beginning of realizing how incompetent, corrupt and compromised so many people in educated positions, places of power and great wealth really are. How could they be up so high and be so incompetent and dark?

But I thought they were good? Look at all the foundations they run, what they talk about, how they treat so nicely so many?  
Welcome to Neptune.

## **Transiting Pluto at 24\* Capricorn square Natal 1789 Mercury at 24\* Aries in 8<sup>th</sup>**

U.S. experienced this cycle once in 1933 – 1935

Pluto returned on **Jan 28 2020 – up to April 2 2020 exact;**  
April 2 being a strong peak.

A challenging compromised activity began to build up from December 2019 up to **April 2 2020**. This was the most painful period of watching some form of heavy situation coming out into the open to harm us. It can appear as a calculating agenda overtaken by darkness to destroy any innocence left.

It continues up through Nov 23, 2021, when the final reveal of the entire corruption and what had to be taken down, is brought to light. Start watching for it, October 1- Nov 23, 2021.

**I**t is the first of 3 cycles. Once a person ( nation) reaches past the first peak date of a Pluto transit, the experience calms down a bit but does continue to be a problem until the very last peak date is over.

Dec 28, 2020 up to January 21, 2021  
Returns Aug 17, 2021 continuing up to Nov 23, 2021. Over

This cycle has the ability to create serious complications with employment, financial security and the mental and emotional well being of a country.

The cycle lasts up to November 15 to 23, 2021.

If this were in a person's chart, it can result in PTSD. It can create challenges with their every day way of life. It can be coming from a difficult unethical and compromised individual. The person will experience complications with being able to function focus, concentrate or carry on with a confident happy life because they are being heavily interfered with by another person's behavior or abuse.

In our nation's chart, our way of life can be compromised, our level of service, work, jobs are impacted... but mainly mental and emotional challenges with feeling we are living in a hostile environment.

It can reflect a negative global mood or atmosphere. It is in the 8<sup>th</sup> and 5<sup>th</sup> houses.  
It is considered a dark cycle where difficult events have occurred in the past but not challenged or addressed so blatantly before as is happening in this period - then it leads up to some form of break or shock with the public challenging one's normal outlook, because of the breaking through from the heaviness wherever its source is coming from.

**The corruption comes out, but at the same time, it's as if the source of the abuse lashes out throughout the entire period of the square. It is the time for our Light to penetrate into the root causes of this corruption, and begin the process of taking control back of our world.**

Usually one person or a body of people acting as one negative entity is behind the hard cycle we're having during a Pluto square Mercury.

( Used for example only – [Link for News Article](#) )

The Pluto can create ripples of far reaching effects. It begins years before it peaks, then the recipient of this transit feels knocked down by the heaviness of the impact of this event, abuse or whatever is the shock. It must be challenged with an equal or greater volume of spiritual mastery and light in order to defeat its attack.

For a country to receive this cycle, it would mean the entire nation is reeling from a possible external attack(s) of some kind.

A build up of treachery and retaliation. An internal breach of security can occur. Mercury rules data. It rules documents, networking, exchange of money in the 8<sup>th</sup> house for valuable information, technology, bio weapons, favors or positions of power. It makes for vulnerability through people who would be in positions of power or influence but have possible demon possession.

The negative energies of the 8<sup>th</sup> house deals with sex, occult and secret dark societies and the arrangement people make in order to gain from these activities. It also rules shared financial arrangements, agreements, shared joint benefits by maintaining certain economic systems in order to control

## **That which was hidden comes to the fore.**

*In 1933-35, Pluto was coming into the 11<sup>th</sup> house of the population of our country in general experiencing massive blocks, restrictions and denial of financial and resources support ( square Mercury in the 8<sup>th</sup> house of the support and abundance )*

This time, Pluto is coming from the 5<sup>th</sup> house which is the opposite of the 30's, where as in the past it impacted the public in general.

This time 2020-21 it impacts individual leaders, famous people, actors, Hollywood, stars, people who appear to have beautiful lives, some entrepreneurs, babies and children.

It can also challenge those who are the very wealthy, privileged, royalty ( 5<sup>th</sup> house, such as knighting people who have no redeeming qualities in their character.).

In one way, it might confront corruption in these areas, and in another way liberate the innocent who have been tied into these 5<sup>th</sup>/8<sup>th</sup> houses activities.

The positive Pluto square would be to turn it around and the higher quality people in the world and our country become the empowerment of Pluto rooting out and confronting the negativity of that situation or people. Pluto will end financial corruption in some way, and those who have made all the compromising decisions ( Mercury in the 8<sup>th</sup> ).

**You need to realize that in both Pluto transits, it's a death and ending of any future gain corrupt people will ever have again. It's over. By the time Pluto enters the scene, destruction of corruption will happen.**

CEO's of honest companies can be liberated in some way as they patiently move through the hardest aspect of this square, witnessing strange changes within the economy, facing the root cause of excessive unfair paperwork, taxation, penalties, and many other highly restrictive financial or labor issues. These things should be exposed, revealed, discussed openly within reliable internet sources, promising revisions, more freedom and an end to some corruption.

Even though the damage and pressure will impact us, the very nature of a person or a country receiving this square ( and we're all feeling it ) will be the revelations which come with it. To experience the harshness, the reality of what has been going on, exposing challenges in the environment and/or economy or activities that have been incredibly evil the entire time could be overwhelming to some.

It's only now, we're having to deal with the escalation and remedy of the problems. This cycle, a reminder, is a period of time when we are under some form of serious attack or black magic event and counteracting with a force they have never seen before.

It can definitely impact our resources causing disruption of every day routines. Regardless of how dysfunctional it has been in the past, people don't like this kind of change or the revelations which come with the purge.

Pluto can be like a laser or bulldozer going right into the heart of this corruption. House # 5 and 8 are involved with this square, once in 243 some years. It's intense and incredibly challenging with it's capacity to shut down a country as it reveals at the same time, what has to go. We shut the door of our hearts towards certain people and situations when this transit hits, never to trust that person/activity ever again. Game over.

## **Transiting Pluto oppose Conceptional 1776 Mercury**

**February 15 2020 peaks February 27, 2020**

Return June 20 -30, peaking exact June 25 2020

3<sup>rd</sup> and last peak - November 28, 2020 – January 1, 2021....over.

Similar to the previous Pluto transit above yet involving confrontations with an enemy who has remained hidden until now.

An opposition from Pluto to Mercury won't shut down someone's job, or block them too badly from getting employed, as described from the earlier Pluto transit above, but it will set up an unbelievable heavy negativity targeting all the good agendas and people within the U.S. and all people who identify with the U.S. higher values.

It is an energy, like a bombardment of repeated troubles coming from certain individuals ( or a consciousness that works through individuals). It can occur randomly as if something seems to have it out for us ( the nation or people who represent that country's beliefs ). Being at the receiving end of this opposition has been one of the hardest challenges of my spiritual life. I felt as if many black

magicians of some sort, were closing in to ruin me, defeat my confidence and stress me in my most vulnerable areas. Now I look back on it, and it seems silly. However, at the time, it felt very real, and would not ease until powers of great light were called upon throughout this period, and an amazing thing happens. A boomerang effect occurs and literally annihilates the enemy.

*“ Beloved Divine Beings of infinite power and love, blaze forth your invincible truth and shielding action now upon America and the entire world, and dissolve forever all Black Magic and all forces of darkness, death and hell working through particular groups, societies, organizations and leaders of darkness. Roll it back into the nothingness and seal it forever. Liberate all innocence, and shield us now by Archangel Michaels' mighty protection, sword and armor. We thank you and accept it done this hour in full power, Amen.”*

This country and all who identify with the beautiful ideals of America which mirror every nation's higher potential in the whole world, could be feeling the seriousness of this battle right now. Just because it is in the U.S. Chart, doesn't mean the whole community of innocent are not going through it too.

It wants to destroy us. I've lived through this before, and it requires your spiritual armor and weapons. And to wake up and finally face where the source is and who has it worked through in the physical realm.

In a nation's chart, the whole country could be compromised in some capacity with this one year long transit. It must be turned around at the onset which is the first three months since its start.

The innocent are between being under attack under this Pluto transit and discovering freedom from it FOREVER.

As soon as this cycle starts, the ones under the opposition will implement a plan to counter-attack and begin dismantling the root of the problem.

Pluto goes to the root. So the entire dark strategy can be reversed back upon who has been building up a momentum of darkness in order to keep moving in and dominating the scene

The reversal can be seen as an energetic battle, a media/corporate clash, economic confrontation or even physical strategic operations at this time. The virus epidemic is only one layer of what could be occurring during these Pluto energies.

Because Pluto's influence is so large, a global effort is required now to get down to the root cause, the source of issues and eliminate it once and for all. Ironically, Pluto rules underground. disentangling from financial, corporate, tech deals and arrangements enabling this kind of corruption in the first place and any enabling entity that has had a grip on the population for too long. It includes the death and end of child sex trafficking.

[An example of one form of confrontation in order to reign in activities dangerous to our world: You could make a list of the top worst activities on the planet, and this Pluto could be taking them all on now.](#)

## Transiting Pluto return February 20, 2022

**Nov 2021 – Feb 20, 2022** Peaking on Feb 20, 2022

July 1-20, 2022 Peaking on January 10, 2022

November 20 – January 1, 2023, peaking on Dec 20, 2022 over.

How do I explain this epic transit properly? This cycle is what I would call the return of that time which launched the American Revolution, only this time it is Global.

This transit was the very first clue I saw back in the early 2000's that a global revolution was going to happen requiring people to stand up to ALL forms of corruption in power. People were going to question, wake up, challenge and throw out those elites from way way back 12,000 years or so, all those elites who have been taking advantage of the *stupid little people* who just live their lives while a massive undermining has been happening. [\*\*A Great Video to explain that one.\*\*](#)

It impacted our economy, financial personal securities, health, food, medical, education, cultural, health and well being.

The dates above are the maximized moments of the awakening of the people realizing what darkness has been happening right underneath their noses, and basically decide to throw the tea over the side of the boat.

It is a revolution of FREQUENCY, SPIRITUAL AND INFORMATION WAR, to take back the control over our personal liberties, AGAIN.

Only this time it's global. It is triggering the U.S. 1776 Pluto, and starts in the U.S.

As each year has gone by, I've watched it building and building, this awakening, confrontations, mini-discussion groups, whistle blowers and confrontations with those who are getting away with murder. We are now in the last year, 2020 before the Pluto return in the U.S. 1776 chart kicks in.

I don't know what forms this revolution will take but I am sure it will be epic.

There will be such a surge of confrontational actions against corruption, escalating with no backing down.

And we need to be prepared, because with each confrontation, each huge bold step forward, triggers a counter punch out of left field as this sabotaging and extremely threatened counterproductive ( I don't know what to call them anymore) type of people are challenged, the parleying becomes increasingly dangerous as each month and year passes by. It will require a spiritual power to transform our world from this oppression.

What we had to do to stay afloat 20 -100 years ago, is not enough anymore.

**In order to maintain our spiritual human rights just to thrive in this world, an incredible resilient spiritual strength and awakening are now required.**

As the sabotaging comes in so many more forms such as electromagnetic, tech, bio weapons, political government restrictions, economic control, health compromises, mind control and cultural molding and so many other activities which torture and enslave our humans to name just a few, a stronger psyche and wake up mode is needed, to be on guard daily.

This Pluto return is found in the 1776 financial house of banking, national resources, what we own, produce, sell and have as our own possessions as assets

The 2<sup>nd</sup> house Pluto increases our nation's capacity to create successful businesses, entrepreneurship.

It puts an emphasis upon opportunity to establish ones' own financial resources and acquire the know how to do it, without any restriction to class. This is the model of the Pluto. However, there is a split as we'll see below.

The Pluto brings mastery, power, resources and wealth.

It rules gold and all metals in the 2<sup>nd</sup> house. It also rules mining.  
( the 5<sup>th</sup> house and Leo/Sun also rules gold, whereas the Moon, Cancer and the 4<sup>th</sup> can rule silver.)

It is our pile of stuff that helps us feel we have the tools in order to survive well, on this planet.

Yet the most important meaning of the 2<sup>nd</sup> house where Pluto sits, is the worth and value of our souls. It is the point where spirit enters the man or woman and we have the potential to truly become As Gods.

The corruption tension throughout our country's history over ownership, our worth and value, our rights and economy, is because this Pluto is in a polarizing aspect all the time called an opposition with Mercury at 24\* Cancer in the 8<sup>th</sup> house in the birth chart 1776 of this country. It means our country has brought over from many lifetimes' memory, the original battle with fallen ones who see us as slaves. And what's crazy, is the 2<sup>nd</sup> house is the house of ownership. It is possible in some genetic fashion, they really believe they own us!

The challenge is to disentangle ourselves from them and our dependency upon them for physical survival to create our own resources.

This opposition is loaded, but creates a constant struggle between our rights to keep and have what we own, including the value of each human life against another consciousness that desires full control and indulge in our existence any way it desires.

The opposition in itself, could symbolize our attempt to break free from the control ( Mercury in Aries in the 8<sup>th</sup> ) and take back our own stuff ( our souls).

( The temptation to write pages about the meaning of this opposition has been tempered, in order to get to the point of this one Transit...maybe I'll go into the natal meaning of this one aspect at a later time )

So, transiting Pluto has swung around the chart in one full circle, from 1776 to now, and is back again where it began meaning all these ancient problems are back again on our lap to confront and overcome.

We have evolved so much and done amazing things with our physical lives, our spiritual development and nations resources, but all along, that nagging opposition ( and a square to Chiron in Aries in the 4<sup>th</sup> ) has burdened us, forcing us to fight hard to maintain who we are, our value, worth as a people, and fight for acquiring what we need. Just as we set up the America liberation these manipulative creatures begin forming banking systems and financing hiding the agenda of its construction in order to once again, feed off the people and keep us under their control. This is only one form ( 2<sup>nd</sup>/8<sup>th</sup> houses)

This cycle simply tells us, we're back in the fight again, at a deeper and harder level than before, because now we are facing more advanced technology, weapons and monsters of financial threats, blackmail and nukes. We are in a world of thousands possibly practicing satanism and coordinating these rituals with some pretty catastrophic physical events, so they all are timed to go down synchronized with their rituals in order to get the biggest bang.

We are in a war with Black Magicians in inner dimensions working through their tools, networked all over the world, with their fingers in so many different organizations, agencies, foundations and societies, government departments and areas which create unfair laws.

There are hundreds of good people in power and government, military and special agencies who know so much of the truth of what these creatures are really doing. They face it all the time, but have not been able to reveal it.

And, my intuition over the years is that we are in a time where this is the big theatrical moment in our solar system and possible universes, where all lines converge on this jewel of a planet called Earth. Everyone wants to have the resources here. This time in our Earth's history is huge because what we do now to defeat these entities will be the full and final overcoming. This is why these astrology cycles are so magnified, and why your own forecast transits during these times are also magnified more than normal. It's like the Epic Grand Finale of an old old story.

THE VICTORY IS FOR THOSE WHO HAVE THE LIGHT AND HAVE THE  
CONSCIOUSNESS TO CARE.

This Pluto return should spread from 2020 to 2028, the most intense cycle from 2020-2023. The exact dates are above.

### **Transiting Pluto at 21-23\* Capricorn in U.S. Natal 5<sup>th</sup> house oppose N Jupiter at 22\* Capricorn in 11<sup>th</sup> house**

Nov 2019 started, peaked on Jan 17, 2020,  
August 10-25, 2020  
ending Nov 1 – 16, 2020.

This creates extreme tensions from conflicting narratives in the world, the nation, regarding any issue under the Sun. Parties, groups, agencies, companies, etc..in confrontational attacks expressing their emotionally charged opinions many times exaggerated, deceptive manipulating the narrative in order to gain advantage.

It is one and half years of a bombardment of opinions over certain subjects which can change culture, pass laws, bills, elect politicians.

It seems it could have been seen as the extreme impeachment, Russia, Ukraine argument going on from 2017-2018 – escalating 2019 on.

**July 4 2020 - Lunar Eclipse at 13\* Capricorn oppose Transiting Sun and the U.S. Sun at 13\* Cancer square U.S. Saturn at 14\* Libra square Chiron at 20\* Aries forming a grand square conjoin N U.S. Moon at 16\* Cancer 11<sup>th</sup> house.**

All Lunar Eclipses are psychically and emotionally manipulated activities where thinking clearly is difficult.

We are prone to making poor decisions. I'm sorry to break the news but there is no Moon Divine Goddess magic occurring during Lunar Eclipses. They are negative times to be shielded up so one does not become manipulated and triggered, regretting it later.

The U.S. are under a challenging Lunar Eclipse on these dates meaning for a week or two before and a couple of weeks after, highly charged emotional reactions to aggressive actions, comments, accusations, create dangerous triggers and the pressure to retaliate can occur during these times, in regards to our position or posture we take in the world. Prays are a good idea to visualize pray or affirm complete mastery, divine control to be present around all national leaders throughout the world at this time. This is occurring in the 7<sup>th</sup>/1<sup>st</sup> houses which relate to the country's relationships, all negotiations, open friendships and arrangements, and also open enemies and hostile confrontational positioning. Very bad time to try to make negotiations.

**Solar Eclipse at 0\* Cancer inconjunct Saturn at 0\* Aquarius conjoin U.S. C Venus and Jupiter at 3 and 5\* Cancer in the 7<sup>th</sup> house...  
JUNE 18 – 28 2020**

**Solar Eclipses stimulate a new theme, compelling a laser vision upon one situation while mildly eclipsing all other issues around one which normally grabs for our attention every day. They build up for about two weeks, and last strongly one month, trailing off for five months until the next Solar Eclipse**

This one is in the house of relationships with key individuals where a finger is being pointed at a leader, a person playing a big role in the frustration of the country.

Because of the inconjunct to Saturn slightly starting from March through July 2020, an ongoing highly inconvenient situation has forced the entire nation and world to adjust their lives, but as the date of June 18-28 approaches, the global population could be zeroing in on one particular nation or person(s) that will not take any responsibility, no reparation or attempt to cooperate and support the suffering that has occurred. We'll watch and see what this eclipse will expose for us at this time.

More might be written about this as we approach the date. My guess, is because the Saturn is in the 2<sup>nd</sup> house of money, the inconvenient demands put upon another leader/nation could force someone's hand to cooperate, yet the inconjunct reveals behavior of having little wiggle room, and no intention in following through for the long haul. It could also then, have people in the world, move forward anyway to put pressure on some leader or country to comply, no matter what. Also, conveniently, because of the highly inconvenienced economic situation, more shifts and adjustments are put into action in regards to U.S. Treasure strategies. We'll see.

**Transiting Mars Stationary Retrograde at 28\* Aries conjoin U.S. N Mercury at 24\* Aries in the 8<sup>th</sup> house inconjunct U.S. Natal North Node at 28\* Scorpio in the 3<sup>rd</sup> house, August 17-19 up through September 30 – Oct 2 2020**

**( Mars agitation (retro ) continues up through November 13, 2020)**

*Heated arguments over elections.*

Polarizing over issues, strong accusations, confrontations occurring regards to constitutional rights, protocols, documents, bills passed, complex arrangements economic strategies and obligations, shifts of financial order and agencies. Intense adjustments leaving people concerned about their financial future. Decisions made quickly in order to regain control over financial dysfunctional situations. The 8<sup>th</sup> house rules financing, Potential for foreign confrontations, aggressive postures and strategic activities in order to grab control.

**...square U.S. Natal Jupiter at 22\* Cancer in the 7<sup>th</sup> house – August 11-13 – Oct 6-8;** conflicting opinions appearing to rush into decisions which fly over the specific details of people everywhere; Conflicting arguments, judgments, opinions over highly charged issues happening in the nation and globally.

**...square U.S. N Moon at Cancer in the 11<sup>th</sup> house 16\* Cancer in the 11<sup>th</sup> house - October 29 – Nov 28, 2020;**

Causing anxiousness over the financial and other national domestic health and well being, the prosperous level of thriving for the people;

**....oppose U.S. Natal Neptune at 21\* Libra in the 2<sup>nd</sup> house – Oct 11-13 and Dec 15-17, 2020** – confusing messages, confusion actions, unexplained decisions where some level of undermining common sense and sensibility is seen.
