Full Moon in Aquarius conjoin Jupiter at 29 Degrees - Ruler Uranus trine Mars and Mercury

(Sun in Leo oppose Moon and Jupiter in Aquarius at 29 degrees)

Emotions run high with big Aquarius issues. Feelings of wanting life to be so different than what it is in reality. Intense urges to break free and do something completely unlike yourself.

This is an intensely stimulating energy this weekend motivating CHANGE. Demanding a higher way of living, freeing oneself from the past. Wanting the new, the more fulfilling and desiring more than anything to be treated with respect, (Leo) and put oneself in some sort of challenge, as if you're saying to yourself," I deserve this or that, why am I putting up with this thing, or that situation etc..etc...."

The Full Moon usually denotes a time when what we have been ruminating about, pondering and concentrating upon for the past two weeks comes to some kind of fruition or maximum event. So this weekend into Monday, should lend to a productive moment where our emotional drive is matching the minds' desire for better. Jupiter's expansive good will and protection enhances and magnifies the change IN SO MANY WAYS mysterious and meaningful. You're on the right track, keep going!
