

STARDROPS December 19 - 25, 2021

Science continues to prove how incredible we are, and this fits in perfectly with today's message which is your power inherent within you to rise up to any challenge and transform it into something incredible.

The Brain Works in up to *Eleven-Dimensional* Structures

Scientists have discovered that the neurons of the brain connect with each other in very specific geometries, building up to eleven-dimensional structures or cliques. In 2005, the scientists at Brain Mind Institute at the Ecole Polytechnique Fédérale de Lausanne (EPFL), in Switzerland began what was called the ... [Brain Project FUTURE SCIENCE](#)

Our Multi-Dimensional Consciousness assists us to draw down other higher dimensional insights, intuition and has the power to bring things into the physical. It is the biggest threat to those who do not have an eternal multi-dimensional nature. We hold a power that is rare and coveted, which is our capacity to slip in and out of intuitive information, gut feelings, inner guidance and mostly, our contact with a Higher Supreme Divinity where we have access to this Eternal Love forever.

The time we are in now, is a unique period in all times of our civilizations, as never before have we had an opportunity such as this one, to overturn once and for all, our slave masters forever and take possession of the Earth.

Keeping this in mind, let's journey through each astrological situation, realizing we're in an amazing period in history, not unlike the Revolutionary wars fighting for freedom, in this and past civilizations. Let's begin.

Venus - You Are Of Great Value and Worth, Believe It!

The belief you are of great worth, is what this Stardrops is all about!

December 19 With this Venus, taking note of all the challenging familiar feelings and false messages you say to yourself, listing them and taking this Affirmation to rid oneself of those things once and for all is one of the theme of this cycle. A good time to start is right now before the end of the year, then on up through the March 8, 2022.

“ I AM now embracing my original blueprint from the Divine. My memory is in the process of being restored, who I truly AM, how much I can actually see, love, give, create and transform life all around me now. I AM filled with the restorative powers of my true worth and value, which has been manipulated, tainted and hidden from me in the past. It is now revived, and I live each day, reclaiming My Divine Worth, which provides the Courage to Change the World for the better.”

Venus turns Retrograde on **December 19th**, in Capricorn and moves through our lives up through March 8 2022. It provides a penetrating energy meant to uplift you in some very special and particular way.

The theme should enhance true divine self love, self concern and self enhancement along with a commitment to do something about it.

Trickling down from other dimensions, comes the love, restores the belief in your goodness and capacity to make a difference...it increases creative inspiration, resourceful self improvement in many ways.

Venus brings a heightened sense of value for business and systems put into place. It can alter the political, government, corporate landscape of the world by instilling conversations from high profile people to incorporate higher blueprints to operate by. Because it is moving through Capricorn, it infiltrates all systems of ultimate power and authority over humanity.

It draws to us things which are at a fundamental level, increasing our functionality, productivity, enhancing your status such as from one status in life to a new status in life. If not right away, at least it projects these higher concepts into your heart to ponder, for the future.

Venus finds a way to bring to you more love, more time, more order in your life. You are more willing now to face certain inevitable responsibilities since Venus is in the sign of Capricorn which is ruled by Saturn, the planet of accountability.

There will be a step up of putting new systems in place to follow, increasing the determination for your governing your life with more consistency, discipline in order to reach prioritized goals.

Pluto conjoins Venus Retrograde

There will be exceptionally strong moments of personal self evaluation and the desire to increase your value, worth and how you want things to be in your life.

This is also influencing those power structures and systems in the world, most likely not internally motivated, but pressured by others, who are demanding change.

The strongest moments of Venus/Pluto tests of love in action will be December 11 and Dec 25. Look for change inside of yourself from **December 11 up through December 25**.

Reviewing what we value and treasure but realizing a bigger picture might be necessary in order to go beyond our past circumstances.

Again, peaks **December 11 - 25**, yet can be experienced from **December 1 - March 8, 2022. Venus Retro conjoin Pluto at 25* Capricorn.**

The most important energy we receive during this cycle, is at some point, waking up in the middle of this Venus release, experiencing a warm insulated support coming from some where. It should begin by **December 19th**.

It tells us we're not alone, re-assures us we can do this, tries to restore our original core value, worth, talents, capabilities and even could bring new love, collaboration, breakthroughs which are a great reprieve for you at this time.

Globally, Venus pulls back the veils and shows us perversions of Venus in Capricorn - the market for all things pertaining to using humans as resources.

Financial corruption, from heads of companies, political leaders, judicial, every area of social structure. Capricorns' abuse is using people for their own gain. Think of the worst all the way up to the least, it all comes under the perversions of abuse of Power and affluence, money and position.

Because Pluto is conjoin Venus at the same time, specifically from Dec 10 - Dec 25, 2021, expect operations launched (conjunctions initiate moments of strong decisions, actions taken and movement forward) in order to force a global exposure of these corruptions in a way that has not occurred up to this point.

This force pressing hard these issues into the open and the motive behind these activities, including everything form of human abuse going on in the world, will pour out.

Venus challenges humanity to choose to value sovereign human life or to agree to humanity merging into some form of ruined race of continual slavery. Pluto makes it more epic, absolute. Pluto's energies magnify the *epicness* of a situation.

Personally, it inspires similar large scale motivations one wants to put in motion now. Pluto enhances the vision as to how it could evolve, be brought into the physical, and be something of great value for yourself. It usually involves career, business ideas, financial expansion and personally, increase of personal self care.

The new action taken in these constructive areas, lasts up to **March 8, 2022**. This is plenty of time to feel renewed and step up your own love and worth.

Venus is bringing to each individual, not only the memory of our our worth, complex brilliance, body, mind and soul, but in Capricorn, ruled by Saturn, the determination to lay out ones' path individually and as a community, harnessing that Power that only Capricorn can deliver in order to do it.

Its goal is to bring down a new higher way of living and productivity for self and for others.

Sun sextile Jupiter

December 19 Sun at 28* Sagittarius sextile Jupiter at 28* Aquarius

The Sun's vitality joins Jupiter's desire to expand, share and gain knowledge. An excellent time for getting together with someone who shares similar cultural views. It creates a time of validation of ones' ethics, opinions and brings support

Mercury trines Uranus

December 20 Mercury at 10* Capricorn semi-sextile Saturn and oppose Hades, and trine Uranus at 10* Taurus.

This day is a light work day - tasks, details, finances, responsibilities, maintaining order and taking care of necessary things. Original thoughts make it a helpful day, getting out of the old routine for sure. The opposition from Hades, presents a situation to discern how we are to handle something we don't agree with, or is annoying, might even appear *just plain wrong*.

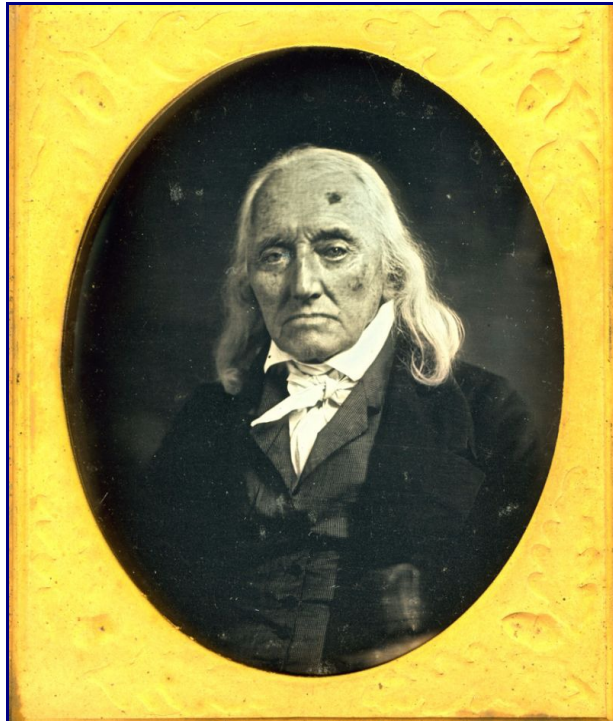

Sun enters Capricorn December 21 - Jan 19th

A new cycle for responsibility, discipline, order and facing our actual realities every day, rather than avoid them...facing the inevitable. If I want to get from A to Z, I draw a straight line and take one task each day, then will arrive at the goal. Of course it's simple, yet the human self can zig-zag on that line - Capricorn keeps it straight. Accessing Higher Blueprints, divine insights and drawing down these new plans is what it is all about today and for the next 28 days.

December 25 Mars at 8° Sagittarius trine Chiron at 8° Aries

A happy day empowering our positive good natures and looking forward to new future successes, better days and definitely healing past sadness or regrets.

The Big Picture

Peter Mackintosh, daguerreotype. Peter Mackintosh was a 16-year-old apprentice blacksmith in Boston working in the shop of his master, Richard Gridley, the night of December 16, 1773 when a group of young men rushed into the shop, grabbed ashes from the hearth and rubbed them on their faces. They were among those running to Griffin's Wharf to throw tea into the harbor as part of the Boston Tea Party that started the Revolution. Mackintosh later served in the Continental Artillery as an artificer, a craftsman attached to the army who shoed horses and repaired cannons, including one mortar whose repair General George Washington oversaw personally. [Source](#)

Saturn square Uranus

December 24 Saturn in Aquarius square Uranus at 11° Taurus - Active all 2021 - the final phase.

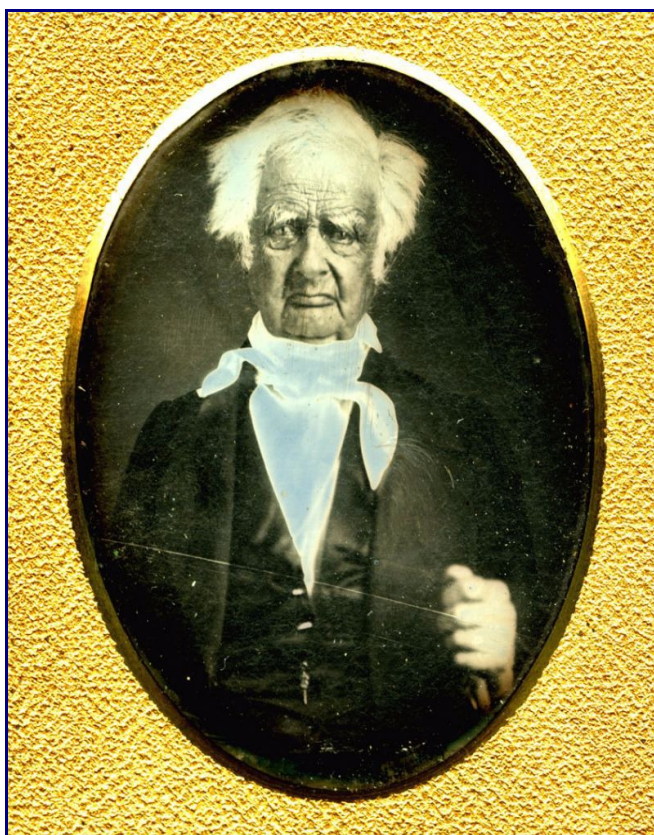

We are at a point in 2021, especially escalated November/December 2021, where something powerful is happening on the earth, yet no one really knows what it is except for a small percentage of individuals.

It is as if we're listening, researching, watching, but absolutely nothing is revealed except a crumb here and there. Everything has gone dark. That should tell you how serious it is. At least two forces with uniquely different values and priorities, are engaged in an intense

fight, and there has to be only one winner in this fight One force has been relentless in pushing, challenging and stopping another force from their attempts to remove love from the earth. As the other force fights back with equal force, we notice very odd things happening on the surface, many dramas, situations, just not making any sense. Behaviors of public figures and leaders, retiring, the stepping down of more CFOs, etc.. and the negative force is simply going to lose yet they never stop, delaying the inevitable, while the whole world is being held hostage. As this continues, it's going to become stranger and stranger, life on earth. Before these cycles which we reviewed, a few months ago, beginning way back in 2011-2012, 2016, 2017, key years where things could not be hidden any longer, a full exposure is taking place and will only continue.

As this impenetrable and irreversible force pushes back against restrictive activities to control, posses people and systems, this positive Aquarian and positive Uranus force, counteracts and disassembles each tactic from those inhumane and insane activities in the world. The lower nature of Saturn and Uranus, plays out by inserting fear and oppression onto humanity, disregulating people's lives.

This strategically exhausting chess game is escalating up to December 24 - 25 -26. That is the final phase since early February 2021 of moves, countermoves marking territory and basically declaring war against an enemy that knows it has run out of time here. This is a time right now over the next few months, where everything is about to shift

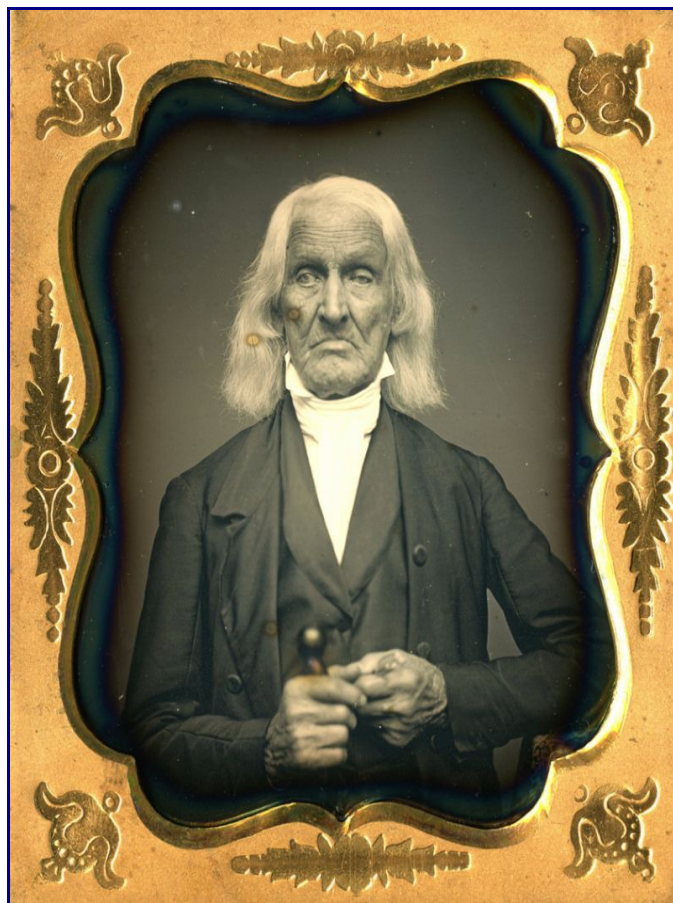

Simeon Hicks, daguerreotype. Simeon Hicks was a Minuteman from Rehoboth, Massachusetts who drilled every Saturday in the year leading up to the war. When he heard the alarm the day after the Battles of Lexington and Concord, the sparks that set off the Revolution, he immediately joined thousands of other New Englanders in sealing off the enemy garrison in Boston. He served several short enlistments and fought in the Battle of Bennington, August 16, 1777. After the war Hicks lived in Sunderland, Vermont as a celebrity. He was the last survivor of the Battle of Bennington. (Courtesy of Joseph Bauman) [Source](#)

**Could something break out, or break through on December 25?
Could there be a major event that takes place on the very last
peak of this square?**

Remember, two realities are going on - the surface media and ultra sophisticated world opinions and another reality of a multi-layered information and multi-dimensional powers, truth and knowledge inherent within high souls in a human form. This multi-dimensional knowing, is the conviction to improve upon society, and within every person's desire to fight for humanitarian truth and progress.

Saturn's final square to the U.S. Sun in Taurus

Jonathan Smith, daguerreotype. Jonathan Smith fought in the Battle of Long Island on August 29, 1778. His unit was the first brigade that went out on Long Island, and was discharged in December after a violent snow storm. After the war he became a Baptist minister. He was married three times and had eleven children. The first two wives died and for some reason he left his third wife in Rhode Island to live with two of the children in Massachusetts. On October 20, 1854, he had a daguerreotype taken to give to a granddaughter. He died on January 3, 1855. (Courtesy of Joseph Bauman)

[source](#)

December 25, 2021 is the final period of Saturn square the U.S. 1789 Sun.

Remember, you don't have to be American to fit into these astrological cycles, America isn't a place, it's a people.

With the finishing of these two Saturn squares, it will be as if someone pulled the ripcord for the swift constructive implementation of change for societies, financial, health, legal, science, etc...will begin.

Remember, not only will Saturn square Uranus end on the 25th, Saturn square the U.S. Sun (the betrayal of humanity) ends on December 25 -both, active starting January 2021, but that Pluto square the 1789 Mercury and Pluto oppose the Conceptual 1776 Mercury are both gone as of November 23, 2021, and October 6, 2021.

These two monsters are the reason all hell broke loose on earth. They both were once in 245 year cycles, unleashing the worst.

They were symbols of Black Magic projected upon a target. They both bring scars that are very difficult to heal in one lifetime and the survivors of these Pluto transits truly lived through what feels like, evil.

These cycles are ending. We have been entangled in what seems like a never ending web of intrigue and destruction. It is psychologically devastating, along with the physical casualties.

Now we emerge from this period, and quickly desire to restore our self respect and confidence, our clarity of thinking.

It is truly overwhelming to take in what has happened.

Something good is working deeply and completely on every level to counteract, strategically unravel and replace the sick activities with permanent plans to re-construct a new way of life. But it's going to require constant confidence and pressure put upon the lesser insanity, which is desperate, and will not ever let go. This pressure, this push back upon the dark, for the implementation of new higher moral systems could take three, five or ten years to complete. It's going to be a fight. In the meantime, there will be functional thriving communities, pockets of progress in every area of our humanities way of living, all over the world, while this very intense battle is ongoing.

As I have said before, two realities are being witnessed on planet earth, simultaneously.

This cycle we're living in is Epic

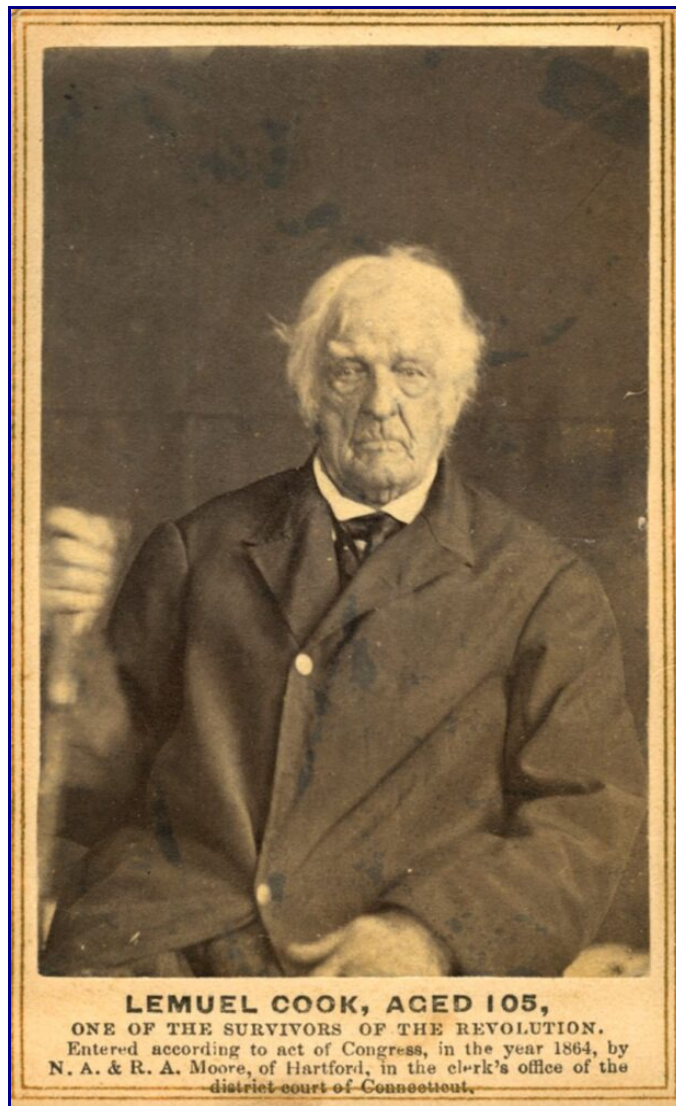

If you have heightened emotions recently, apprehensions and fixation upon the world events, it's because you know at some level, this is a time of the Great Spiritual War and it is truly epic. What happens through this period of humanity is going to dictate what direction humanity on Earth will go in, for the future, for all time.

Never before has any civilization come to this point in time/space where we can actually defeat not only corruption but its very source. Can't you see how there is this rush coming from certain areas, to take over everything way to urgently? Panic is everywhere among those who have the most to lose, because there are those that have no ability to spiritually survive after this is over, and they know it. They need your love, your obedience, your brilliance, individuality, the blueprint within your genetics which hold the hologram of your very soul...they want that soul stuff in order to survive and live, because they don't have it in themselves. Some may ask, how is that possible? It has been the biggest kept secret on planet earth.

These exhausting astrological cycles we've been reviewing and living through, all lead up to

the major Pluto conjunction I've been calling the second American Revolution on February 20th, 2022.

People might be tired of my rant about this since I've been talking about it coming, since the early 2000's, but I could feel it. I knew it was the big one earth would face, and that would trigger the revolution upon humanities' oppressors. It's a revolution for the people and desiring what America and all who love the ideal of America, what it represents for the entire world, against some thing that desires to destroy that treasure of great value., represented in the Constitution. Forgive me for my passion on this subject, but the love for humanity's ultimate liberation from those oppressors has been my greatest motivation since a child. What some have thought simply science fiction, I have experienced as very true, and I know what is behind this oppression and why. This is an ancient war and the beginning of the end of this saga, starts now

Lemuel Cook, CDV card photo. Lemuel Cook witnessed the British surrender at Yorktown, the event that guaranteed American independence. Of the event, he said, "Washington ordered that there should be no laughing at the British; said it was bad enough to surrender without being insulted. The army came out with guns clubbed on their backs. They were paraded on a great smooth lot, and there they stacked their arms." (N. A. and R. A. Moore,

Courtesy of Joseph Bauman) [source](#)

Scorpio/Taurus Nodes conjoin the U.S. Nodes switched

The Nodes Scorpio/Taurus conjoin the U.S. 1789 Nodes in Taurus/Scorpio reversed.

This kind of astrological cycle, denotes an important period of America to move into its' fate. It operates like a fated inevitable action and decision made among millions because of something discovered, something which has occurred that is the last straw, the moment of no return.

February 1, 2022 begins a flipping of opinions, loyalties and allegiances. A swing to an opposite position, and switch occurring with economic structures. It could happen swiftly and play out through the entire year but play out for years.

Is this a long planned financial move made which brings about a new system? Are there two separate systems attempting to be implemented by two unique movements with opposing values and reasons?

The U.S. Nodes have been one long agenda governing finance and systems since 1776, systems of control, versus prosperity, but with the new Transiting Nodes conjoining the U.S. Nodes in opposite position could indicate a flip occurring, a turn around, such as economic structures, data, the value of our money in relation to the global economic systems. Also, it could mark a time of the changing status, data, and information in regards to concussions with science, medical facts and research, statistics, medical protocol, flipping public opinions, positions which previously seemed almost stubbornly locked in opinion. Now they could suddenly change into a completely opposite stance.

Uranus in Taurus sextile the U.S. Jupiter in Cancer Opportunity for Truth and Innovation

George Fishley, daguerreotype. George Fishley was a soldier in the Continental army. When the British army evacuated Philadelphia and raced toward New York City, his unit participated in the Battle of Monmouth. Later he was part the genocidal attack on Indians who had sided with the British, a march led by General John Sullivan through “Indian country,” parts of New York and Pennsylvania. Fishley’s regiment, the Third New Hampshire, was in the midst of the campaign’s only contested battle. After the Battle of Chemung, August 28, 1779, the Americans had devastated forty Indian towns and burned their crops. Later Fishley served on a privateer – a private ship licensed to prey on enemy shipping – and was captured by the British. Fishley was a famous character after the war in Portsmouth, New Hampshire, where he lived. He was known as “the last of our cocked hats” – Continental soldiers wore tall, wide, Napoleonic-looking headgear with cockades. He marched in parades wearing the hat, which his obituary said “almost vied in years with the wearer.” Fishley is wearing the hat in the daguerreotype. (Courtesy of Joseph Bauman)

Beginning July and August 2022, original research from credible individuals bring more interest and trust into public information, changing the direction, enlightening and bringing truth and revelations to public in order to establish more reliable data.

The people are gravitating towards these more reasonable trustworthy and provable pieces of information (and experts) whether medical, economic, business and economy, political, etc...it happens in every area which impacts people’s way of life, not just financial, medical and science. [Source](#)

Beginning July and August 2022, original research from credible individuals offers truth and trust to the public. It brings breakthrough information, changing the direction of the narrative, provides enlightening, truth and revelations to public in order to open the way for advancement

The people are gravitating towards these more reasonable trustworthy people now and provable pieces of information (and experts) whether medical, economic, business and economy, political, etc...it happens in every area which impacts people’s way of life, not just financial, medical and science.

This cycle is Uranus in Taurus sextile the U.S. Jupiter in Cancer in the 11th house.

It occurs throughout 2022, up through May 2023, yet sets a new trend which is so helpful for implementing the new truth, the new revelations, within the U.S., and global enlightenment and cooperation among other countries' smartest individuals.

Saturn inconjunct Jupiter, the planet of reasoning, morality and ethics

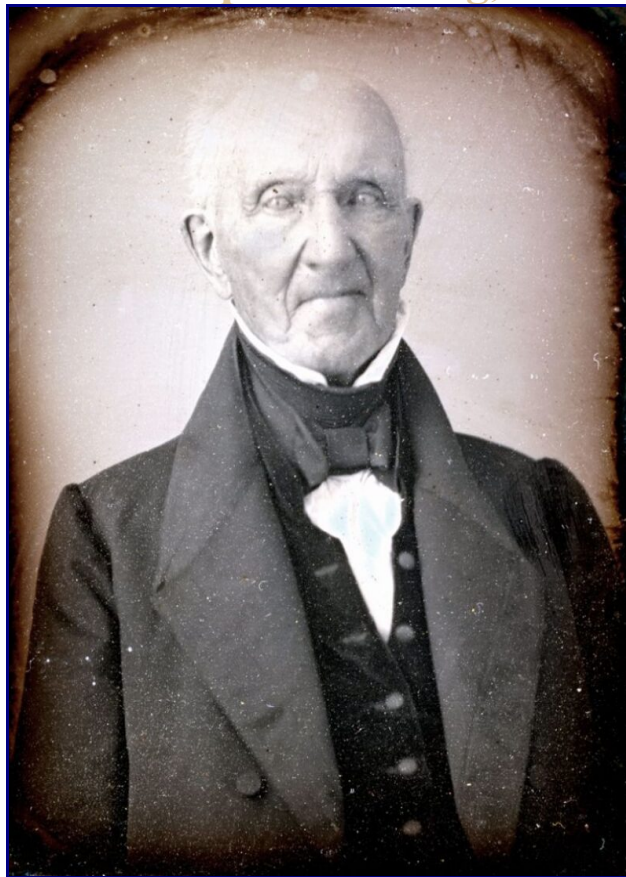

While new information enlightens millions towards truth and supports the people's attempt to repair their lives, Saturn comes in from April 1 - 15, in an inconjunct to Jupiter, and hits three times (below) with opposition, doubt and cynicism, creating an uncooperative situation, throwing a wrench in the gears of progress in many areas.

The disconnect and inconvenient interference is on:

April 1 - 15, 2022; July 20 - August 15, 2022; December 20 - January 5, 2023.

In each area, the highest approach we should take is to bypass the distraction and continue moving forward on these positive plans.

Neptune trine the U.S. Jupiter Healing, Reasoning and Hope

James W. Head, daguerreotype. James W. Head, a Boston youth, joined the Continental Navy at age 13 and served as a midshipman aboard the frigate Queen of France. When Charleston, South Carolina, came under attack, five frigates, including the Queen of France, and several merchant ships were sunk in a channel to prevent the king's troops

from approaching the city from one strategic direction. Head and other sailors fought as artillerymen in forts and were captured when the Americans surrendered – the Patriots' biggest and arguably most disastrous surrender of the war. Taken as a prisoner of war, Head was released at Providence, Rhode Island and walked home. His brother wrote that when he arrived, Head was deaf in one ear and had hearing loss in the other from the cannons' concussion. Settling in a remote section of Massachusetts that later became Maine, he was elected a delegate to the Massachusetts convention in Boston that was called to ratify the Constitution. When he died he was the richest man in Warren, Maine and stone deaf because of his war injuries. (Courtesy of Joseph Bauman)

[source](#)

Neptune also trines the U.S. 1776 Mercury, a much needed healing after the devastation done to Mercury from the two years of Pluto oppose Mercury.

Mercury is our nervous system and mental abilities..it rules the media, the news, information, documents, decisions, communications, arguments, debates - Mercury rules messages, relaying opinions and judgments, concepts and beliefs....when Neptune trines Mercury on these dates below:

March 20 through April, its first cycle of powerful healing and restoration with communications and information themes, then continues protecting and enhancing the morality of these issues up through February 18, 2023.

Neptune attempts to protect and preserve, uplift and restore confidence and validity in all higher messages, documents, media outlets and opinions as Mercury is tied to the U.S. 9th house of integrity, moral standards, removing hypocrisy. It rules legal documents, the higher courts, the Constitution, the predominant opinions and beliefs of society, whether moral or not, cultural trends and opinions, the beliefs and reality certain segments of the population believe is true for them and real for them, whether healthy or not.

The 9th house rules aliens, foreign ideas, beliefs, foreign to our organic nature and intuition and so these would be the areas which have been violated, and Neptune attempts to soothe, restore and heal.

Pluto's horrific attack upon the minds of the people

In 2019 - 2020 and especially starting March 2020 through 2021, Pluto tore down, manipulated and gas lighted the emerging enlightenment of people, their higher beliefs, a great awakening which had been building for years. Pluto suddenly moved in, insinuating its complex energies onto the world. It also escalated its manipulation of information and altering the accurate transmission of everything we absorb from TV, radio, internet, music etc...within the Mercury in the U.S. charts. It would step up mind control, devices, technology, gas lighting and mental manipulations at any level against the population. Who is doing this and why? It isn't a country,

This was a once in 246 year period of manipulating the minds and information, facts, media, science, laws, beliefs, relative realities and attacked any 9th house standard of objective truth and humanitarian morality. It successfully created separations with relationships as it also ruled the 7th house in the U.S. chart. (Gemini on the 7th, Virgo on the 9th).

Neptune however, is the doctor and can heal, restore, resolve and bring back a higher intuitive desire for union, bonding, also research, review, facts, moral humane standards, honesty, ethical procedures, treatments, law and social re-structuring.

Neptune is transiting the 3rd house of facts. The 3rd house represents accepting reality, things which can not be denied. Living in the present reality and addressing what is.

This Neptune Cycle from April 2022 - February 2023, can protect and elevate our humanity's greatest values and principles as guidelines for systems for society's structure, not only for America, but for the world to be embraced and incorporated. Imagine.

Uranus Cycles- innovation, courage to initiate independence from old controlled and compromised systems at every level

Rev. Levi Hayes, daguerreotype. Rev. Levi Hayes was a fifer in a Connecticut regiment that raced toward West Point to protect it from an impending attack. He also participated in a skirmish with enemy “Cow Boys” at the border of a lawless region called the Neutral Ground (most of Westchester County, New York, and the southwestern corner of Connecticut). In the early years of the nineteenth century, he helped organize a religiously-oriented land company that headed into the wilderness of what was then the West. They settled Granville, Ohio, where he was the township treasurer and a deacon of his church. His daguerreotype shows him holding a large book, most likely a Bible. (Courtesy of Joseph Bauman)

[source](#)

With Uranus continuing to conjoin the U.S. 1789 Sun in Taurus which intensified **May 2021**, increasing all **December, January and February 2022** (the instigation of the awakening,

the epic innovation transformation for the physical material, economic trigger) there has been no way America and the world of beautiful souls, could have not woke up. Not only does Uranus conjoin Sun act like an earthquake to our financial, judicial and moral reliability, but triggers many to rally and speed up the corrections and implement those alternatives, as quickly as possible. These Uranus cycles are once in 83 some years. It initiates innovation in space commerce, travel and efficiency.

This Uranus also beginning to sextile the U.S. Moon, launches all forms of progress with agriculture, organic production becoming the preferred source of nutrition (Example: [Kelloggs promise to stop using glysohate](#) by 2025), breakthroughs benefiting the public within science, breakthrough economic systems, new technology offered to the public used for improving health, energy, benefiting peoples' lives, along with building friendships crossing professional expertise lines and unifying purposes across the globe is going to increase.

Newly created internet web platforms, internet alternatives, securing connections, establishing independent constructive communities, opening up channels of overriding those who act from selfish self gain corporations at the expense of humanity, all the lies, deception and betrayal practiced against people at any level...Uranus will provide countermeasures to check mate these entities.

It offers the energy and inspiration towards self improvement and advanced freedoms for businesses and professionals sharing skills to increase flow of money, life and resources. It is innovation par excellence! These activities can begin to explode everywhere. It's as if everyone advancing, accelerating, becoming smarter, more independent, researching, and growing, in spite of the conflicts we're living in is increasing in order to retard it. They are happening simultaneously.

The conflicts and opposition to this wave of liberation is going to be huge, however, this wave will win

This cycle as the others above, could introduce a new financial system for greater freedom and security, unable to be controlled by dark activities.

Both Uranus and the transiting North Nodes are in 20- 24* Taurus sextile the U.S. Moon and Jupiter in the 1789 11th house.

2022.

This is the return of that 1776 moment, of the declaration of independence from those particular systems 246 years ago, but this time, it is humanity's Declaration of Independence from the corrupt, on the whole entire Earth and beyond.

Remember, many positive transits are occurring at the same time, larger and longer lasting than the Pluto and the other challenging aspects. .

Please know, the two epic Pluto transits from **March 2020 - November 2021**, even though they are over, devastated many people on earth, and will play out for years afterwards. We are at war and there are casualties in war.

This is the year, 2022, when most people finally realize this reality and understand, it is an unconventional war, not between countries, but between one evolution of light versus others not of the light, above, underground, and also in human form living among us.

Things will happen that will support these truths, and when the next Neptune/Node cycle occurs, on **March 27, 2022**, Neptune sextile the transiting North Node - Pisces/Taurus, a new acceptance of the obvious will occur. It is very possible, as Neptune rules film, photos and things hidden, videos, files, photographs and confessions will emerge. This cycle won't leave much chance for any speculation any longer, for the negative manipulative Neptunian deceptions to continue. We have been in nothing but confusion since **January 20, 2021**, when Neptune in Pisces squared the Nodes in Gemini/Sagittarius.

As Pluto continues to dismantle the old matrix for the better, and *others* are attempting to use Pluto to desperately step up extreme measures of control, abuses of power, this war of Pluto matching energetically and vibrationally the 1776 revolution, will take years to play out, but society is going to find a way to build a new world ***simultaneously***, while huge segments of activity on this planet are continuing to fight for domination over humanity. One, for the moral high ground, and the others for that desperate need to maintain the use of humanities' resources it lives off of.

Transiting Pluto and Neptune sextile – the transit of Uranus and Neptune sextiles, and Uranus trine Pluto - 2025-2027

William Hutchings, CDV card photo. William Hutchings enlisted at age 15 for the coastal defense of his home state, New York. Writes Hillard in *The Last Men of the Revolution*, “The only fighting which he saw was the siege of Castine, where he was taken prisoner; but the British, declaring it a shame to hold as prisoner one so young, promptly released him.” (N. A. and R. A. Moore, Courtesy of Joseph Bauman) [Source](#)

We will experience advanced progress in energy, efficiency, freedom along with the platforms of transparency with information sources, the media and journalism. Also within finance and business. The exposure of the records of medical, political, corporate, tech and all space/science will come out.

Increased progress and innovation towards humanity's liberation from oppressive dark tech and government leadership and involvement in destructive activities, begins when transiting Uranus sextiles transiting Neptune and trines transiting Pluto beginning **August 2025 up through 2027.**

In addition, **Neptune will also begin to sextile transiting Pluto in 2026** creating the desire for healing, cooperation, rebuilding and creating a high mood of inspiration towards future

potential. Neptune moves into Aries on **March 30 2025**, which is that inspiring idealism fueling all desires to launch new life for the Earth.

These positive cycles bring hope if we can fight through these next three crucial years for a higher way, not selling out our humanity's worth and value, and our right to be free and take possession of the Earth.

We have no alternative. Be creative, pro-active, it will be so worth it!
