

## CHANGING TIMELINES

### **April 15 – 19 peak April 18 Mercury conjoin Uranus**

Two major themes are going on for the next few weeks: the revealing of deeper more shocking information, and secondly, powerful alliances made to improve on situations, discuss, share, compare notes and report on these challenging facts uncovered.

Let's delve into an unusual cycle of Uranus aspects first, which bring originality to the world scene, (and our own creativity).

Beginning with the Mercury Uranus conjunction, which is a one day event, is a good place to start. You will see how many times this Uranus theme and one other, a sextile theme appears in the skies, as you continue reading through this post. It is a theme of revelations, and exposures of people and what has been going on in the shadows. It's beyond Ukraine/Russia, Virus/Vax , there is so much more. It is a theme about a continual escalating of exposures of things, and changing the outcome into higher pathways, and the second theme, a series of sextile aspects, is about the vibrant and original conversations which will go on, as to what to do about them and all the origins, motives and other

things shared among people that can influence the public for the better.

Theme #1, revelations and transparency penetrating *everything*, is the theme. Sudden dynamic changes and truths coming out about so many key events – economic, medical, political organizational, corporate, social media, there is nothing this cycle will bypass. The world is beautiful and the world is corrupt beyond belief and it continues to be exposed. Good and Bad.

We are going to make it and yet at the same time, some of you might feel you're running your life around mine fields simultaneously. You're embracing the beauty of life while some of you might be busy making your survival lists.

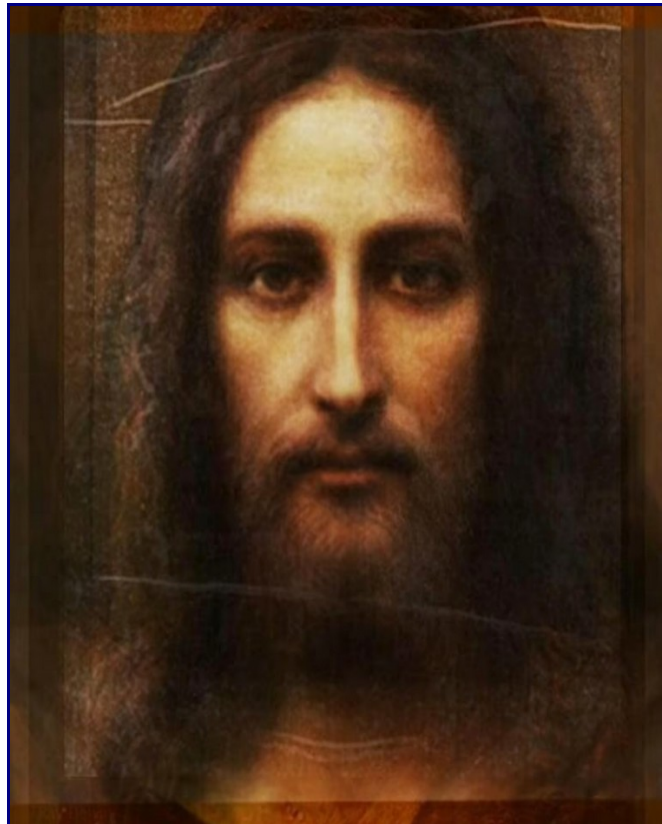

You wake up every day going through the motions, work and social, commuting and family, and “is this the end of the world as we knew it”, are part of normal conversation.

As we're pumping gas, some of us might think, “Darn, I forgot the 5 gallon gas tank at home, just in case.”

Purchasing food is a normal routine, and so is throwing in another \$100 dollars of canned goods, just in case the trucking lines are disrupted or we go to war.

We're already living that dual parallel world you and I have so frequently addressed these past few years in the Stardrops and other releases.

(I will continue with the Mercury/Uranus in a sec)...

Our Divine Example Who Overcame The World

We're going to make it, but my intuition tells me, it's going to be the most bizarre magical and surreal time humanity has ever lived through, in the sense that strange and major events continue to erupt in the world, while simultaneously we are maintaining our functioning lives. Every time you hear me go

on about Uranus, think Aquarius, think transcending time/space, think alchemy and shifting outcomes suddenly without notice – revolutionary, think change and transparency, truth and in a twinkling of an eye, a new situation appears. How could this happen? Overcome the negative predictive outcomes, not only for your own patterns, but the world also.

## We are all together Great Overcomers

Going back to Uranus/Mercury issues, we have been in a theme from **April 10 – 19<sup>th</sup>** where several planetary cycles including the Full Moon on **April 16** have been triggering some dangerous times on planet earth, but I sense so much has been overcome. by giving continuous affirmations and projecting the containing of any renegade circumstances, so far we just might have avoided a worse scenario. Your life is a divine example of continually overcoming the world. We just need to keep going with any potential challenging cycle. You can feel it intuitively, along with astrological cycles coming in.

What then can emerge, is more crucial information rising to the surface.

Some are so busy with schedules/work/family – who could keep up on all the lengthy interviews and documentaries available out there now. But many of you feel compelled. There is a reason for this. It's important, yet to be kept in balance. Observing, and overcoming, altering through intentions to demand a higher outcome in the world.

Gone are the days when we tune into Crossfire or 60 Minutes on Sundays to stay up on events.

## Mercury/Uranus Themes

**Mercury's quicksilver brilliance combined with Uranus truth, tears down veils of deception from shadowy activities.**

Hermes Trismegistus – God Mercury

Reveals accelerate. What is broadcasting across the airwaves will be unusual presentations, but also some increasingly disturbing breakthrough information.

These difficult subjects need to happen as Uranus' job is to expose and reveal truth, and they contain jarring information.

**Mercury conjoin Uranus** creates honest, brilliant and transparent reporting.

**Mercury conjoin Uranus on April 18<sup>th</sup>, felt from April 11 – 20<sup>th</sup>, even though it is technically only one day, will then change over to Helio Mercury square Uranus on April 18 – 25<sup>rd</sup>, then Helio Mercury oppose Helio Uranus in May 16<sup>th</sup>, and Uranus conjoin Sun/Moon in a Solar Eclipse on April 30<sup>th</sup>**, setting a new five month theme of brilliant exposures and acceleration among all things financial and humanitarian. The Uranus pattern continues.

This is where sudden events brake out into the world where no one expected Uranus will continue to reveal and accelerate sources of information all over the world, also bringing unconventional solutions to living, in order to maintain the theme of independence and liberation from excessive invasive activities and control.

Alternative businesses, systems, and emerge in full operation. If systems breakdown or change over into more control, a new one emerges.

This Uranus then moves towards a conjunction to the **North Node in Taurus June – August 2022 which my guess are economic adjustments happening – July 26<sup>th</sup>** would be the exact peak of the activity. This is because Uranus in Taurus is about the transformational shifts regarding money, value and the worth of the currency, and Nodes reflect the mood of the population, the trends and also can represent financial state of the people. This conjunction shows up also as a moment in time, where challenging financial, economic situations are peaking, possibly a collapse even, people feeling very anxious and angry, potential mobs, rioting because of the reaction of a buildup of restrictions, manipulations and withholding that abundant life which is always right there. Uranus wants us to take the reigns and steer the energy towards demanding change immediately. I believe in fixing a situation before anyone is harmed. I don't believe in allowing something to get so bad just so the people can see. That would be like putting your own family in harms way just to teach them a lesson. Allowing sacrifices to take place in order to teach the greater whole. That's crazy. Uranus desires truth, innovation, and wants it implemented now. It's already overdue.

**For the next few weeks positive discussions, meetings, planning and making important decisions, is in high focus because several planets are in sextile ... Venus sextiles Uranus on the 18-10<sup>th</sup>**a social sparkly connection with important people in your life. People are more likely to agree, share, join in stimulated conversations now, finding what's similar, noticing what they do agree upon and targeting higher truths. Excellent research and conclusions can be reached and settled.

**Mercury sextile to Venus – April 17 – May 6** bringing similar social compatible discussions and alliances with others, meeting eye to eye and reaching positive decisions. Embracing support and helpfulness in situations which in the past might not have been considered...It's casual yet productive good will and supportive time together with others.

All dates of planetary sextiles continue to bring to us opportunities for learning new things, opening up relating with others, and empowering connections where presenting refreshing information is flowing back and forth. Here are more dates below:

**April 24 Mercury sextile Neptune**

**April 26 Mercury sextile North Node**

**April 27 Mercury sextile Jupiter**

**April 27 Venus conjoin Neptune idealistically I inspired, socially love expansion**

**April 28 2022 Mercury trine Pluto,**

**April 30, 2022 Venus conjoin Jupiter and**

**Venus sextile Pluto May 1**

**Each of these dates are positive experiences for greater harmony with others in our lives and also our witnessing constructive conversations happening everywhere in order to inform, change, support and plan for personal, professional, humanitarian-economic global transformations.**

Definitely, you will want to take advantage of **April 20 – May 1** (and beyond) where plans for outings, events, important meetings can bring you fun and a more productive feeling in your life. These dates all bring harmonious meetings, arrangements, scheduling, coordinating, events into play.

So along with the Mercury/Uranus energies, plus more Uranus cycles to come, we also have these communication, sharing information and collaboration astrology cycles at the same time as the disruptions and sudden events continue unfolding. Not everything however is horribly difficult. The sextile are very good as difficult subjects emerge, discussion can take place in order to move forward with constructive decisions about them.

## Reality and Work

**On April 18 – May 1** Sun square Pluto Another astrology cycle which has been building since **April 10**, leading up to the **Full Moon on the 16<sup>th</sup>**, again discussed in the last Stardrops. This cycle is a serious door closing of the past, a way of life, an old pattern, attachment, or something which has served its purpose, but now seems already as if old, or outgrown. This cycle was presented in last week's Stardrops, and made up the majority of the theme of that Article. It also deals with an unwillingness to be controlled, marginalized, dismissed or abused in any way.

## Sun enters Taurus

**April 19 – May 19**

A new plan, for the building of something important. Whether it is a project you're deciding to take on, a garden, house repairs or building up of your own internal power and worth in whatever way works for you, is inspiring an increase of value placed upon your own life.

**April 17 – 28 exact 21 Saturn square Nodes** The restrictive Saturn hyper focuses attention upon money, our practical part of life such as food, gas, and the patterns, the real reasons behind restrictions, delays and the lack

This cycle will stimulate very detailed tracking as to how this has occurred, in reality. Globally it will present the facts to the rest of the public, and possibly make an announcement as to what is going to have to happen. This will be rejected by many as stupid. It will be ignored, and many will take alternate routes to re-boot their own quality of life, use of money, and becoming more resourceful with purchasing goods among their own communities until it catches on, no one wants to settle for more control and restrictions. The innovations can begin anywhere, and would begin to catch on.

Again, what will be uncovered, isn't what everyone thought. The acceptance of financial situations, facing it and then getting square with our situation, making important money decisions and movement, getting square with the facts – moving forward with a desire to change it for the better for our future.

One possibility of the Sun in Taurus, Uranus conjoin solar eclipse in Taurus, all the sextiles of conversations, the Saturn in Aquarius square the Nodes ( which can pull in social decisions and trends which are also in Taurus/Scorpio right now) and the U.S. Pluto return in Capricorn (institutions and corporations, power structures) in the 2<sup>nd</sup> house of banks, value of currency could be the big discussion, opportunities and shifts with money as it is becoming more and more evident of the changes occurring globally within the financial system is about to change our lives.

The Saturn square Nodes can also help us reflect upon how much of the hours of our days are not going into nurturing things which are meaningful to us. What are we going to do to change this situation? Many might be pondering this issue right now.

**Mercury conjoin Node and square Saturn April 23 – 25 exact 24**

Along with Saturn square Nodes in regards to time/money and our value or worth, along comes Mercury joining this square. Our minds are locked onto making important key decisions with addressing hard questions, forced to do some reviewing, research and confronting the problems square on, then adjusting. You'll want to push through the density and desire a way to fix something stuck, set up a system and move beyond that old frustration.

Look forward to it, capture the vision given to you by a guidance who knows exactly what you need to hear, discover and then put into practice, beginning in May.

## It is the missing piece to your Scavenger Hunt

Look for this insight as it will help. This Mercury retro is slightly square the Moon in Virgo, which brings frustrations into the things you worked hard to materialize. They were your inspirations yet some irritant might attempt to ruin them.

## **May 1 – 5, peaking May 3 Jupiter sextile Pluto**

All of these positive sextile cycles we have been listing in this article, produce productive conversations and ideas shared, but also for Key Influencers on a Global level, **reaching great breakthroughs, May 1 – 10.**

So in addition to all the above great sextile dates, we have also on May 1 – 10 the Jupiter/Pluto sextile.

This aspect is stronger, more powerful in its capacity to create an atmosphere of encouragement and acknowledgment to those who are determined to make humanitarian changes.

It sends a message to backwards organizations, to stop and listen to the new majority of innovative influencers, as they are fast becoming the stronger influence.

Each one of these sextiles in the above list from April on, are information releases, such as interviews, video presentations, discussions, influencers and professionals sharing, posting, talking and networking groups with those that have the money, the influence and abilities to make these new inroads into activities which present options for people to be safe and thrive in our future. It is absolutely exciting!

## **Mars sextile Uranus May 1 – 6**

Another super charged sharing and discussion sextile with a punch.

Highly energized exciting newness of events take place with others, a new purchase, a sudden excursion, trip, a wonderful time with another. Globally, Mars initiates action, pushes events forward into the physical world around you.

## **Sun conjoin Uranus May 5 2022**

The power of the Sun's vitality joins freedom loving, independent Uranus. Breaking molds, old viewpoints and desiring to do something completely different is the inspiration today.

We desire to be free. Freedom and change is the theme. No one can deny humanity should have freedom and safety, original and innovative, this is the conversation everywhere. Changes occur with our functional every day life.

## **Mercury sextile Venus May 4 – 7**

Another helpful sextile – Mercury brings the ideas, the talks about money, purchasing power, currency value and exchange.

It also increases good will, harmony in collaboration with other like-minded people on any social concern in the world.

It increases the magnetic attraction between all groups to find each other and appreciate and acknowledge each one's contribution of sharing facts, since Mercury is in Gemini now, throughout May and is all about sharing facts and discoveries, along with creating new technology, businesses, networking and smooth streams lifestyle efficiency.

## **Sun sextile Mars May 9 May 7 2022**

Another helpful sextile contributing to action, logical well thought out engaging, launching productive plans, taking action towards one's purpose, the groups' purposeful strategies and organized functional expression of creative powers.

## **Solar Eclipse in Taurus**

**April 30 2022 at 10 Degrees**

In addition to the Mercury trends and numerous sextile aspects, will be the upcoming **April 30 Solar Eclipse at 10\* Taurus (Sun and Moon conjoined in Taurus) conjoined Uranus at 14\* Taurus sextile Mars in Pisces**. This will be a five month theme beginning April 30.

Here we have yet another Uranus energized event creating unconventional and unexpected events and disruptions but important reveals occur.

Remember, sextiles bring conversations to the table in harmonious cooperative ways that otherwise would not happen.

With this **Solar Eclipse**, it will eclipse all other minor themes going on in our lives and cause us to focus upon one thing now.

Globally it will do the same. One subject will stand out publicly to be dealt with, and with Uranus connected, again, we have revelations, transparency, the shocking and unexpected erupting into a major subject.

Well, there you have it. My concern at the end of each post is I missed something you might need. I have a good sense, to recap, the main themes are communications, sharing, opening up more and more channels of sharing what research, ideas and innovative inspiration you possess and take some positive action towards bringing it into physical functional use.

Opportunities to protect your life, money, quality of living is available, simply ask for it. Nurture your Angelic connection between self on Earth, and the Higher World, each day.

**Ask, Ask, Ask. That is the Key!**
