

Stardrops December 18, 2022

### Image Credit

We have all been through so much and yet a new request is being handed to us as we enter 2023. Some will be familiar with this idea and others might not. The upcoming Mercury Retrograde in Capricorn on December 29, 2022 through January 18, 2023 is a small yet crucial piece to taking our lives to the next level of empowerment. It is the reminder to use the Power of your Throat Chakra to voice commands, Affirmations, to imprint ideas, hopeful outcomes for your future onto the template of the world surrounding you. The ky

key formula is to include Planetary Positions, their degree and sign they are in, within the Affirmation, in order to change a possible negative energy coming from that planetary influence to a positive one. I am of the belief there are incredible Divine Presences (including our own Higher Self) which uses planetary influences and positions to assist in amazing acceleration of outcomes, but also am very aware of negative forces utilizing positions of the stars and the moon to harness the more harmful energies of that planet for their own gain. It's time we incorporated the formula of the Planetary Affirmations into our toolkit so we can take this game changing cycle to the next level.....Example:

*I AM fully charged with the full transformative power to be in total alignment with my true Divine Purpose every day, accepting the strategic inspiration of Mercury in Capricorn at 24\* - 8\* retrograde trine Uranus at 15\* Taurus. I call for the best and highest outpicturing in my world, of my potential on every level to unfold before me and for the unexpected breakthroughs to begin today!*

As we affirm and ask for the highest positive to unfold in our life, we would also be smart to call down Divine Intercession to transform, transmute the energies of the potential disasters, mishaps and misfortunes which could also come about via three upcoming astrological cycles by declaring:

*Archangels, Divine Higher Presence of me, Archangel Michael the most invincible, I call for Alchemical change from dark to the light now as Pluto at 27 to 29\* Capricorn conjoins Pluto of America' natal chart, not seen since 1776, which could be harnessed by manipulative forces to reset our economy, interfere with our independence and increase control over our way of life and manipulating the lower energies of Capricorn over*

*humanity. I AM Now calling for the power of light to transform this Pluto position into only empowerment for the light, for all blessings to now come to every living being on earth, disrupting further manipulations which could potentially trick humanity into further entrapment unknowingly and I accept this Alchemical change according to God's Will.*

We are now entering the Age of Transformation for the Highest, and by using Affirmations, you are asking the power of Love to join with your own personal voice to alter events according to the highest Will and Cosmic Blueprint possible, going right to the heart of the electronic energy before any event even hits the physical world. Can you imagine how empowering this could be? Planetary energies which line up with our own personal astrology chart or countries or other planets' positions which could be extremely challenging, can be transformed from the force of love projected into the magnetism for the highest good, by isolating the planets involved, the sign and degree they are in for that particular cycle, and invite the Divine Source (God's Divine Presence) to protect the highest purpose of that cycle and seal off and block it from being used by the dark magicians of earth which we all know by now, exist.

**Let's continue.....**

As Pluto makes its last exact connection to the U.S. 1776 chart, we'll see an intense increase of polarizing towards one position against another position. The U.S. has been moving through a Neptune oppose Neptune which is a cycle of surrendering our idealistic simplistic natures and accepting greater truths....so ultimately the positive changes we desire to take place in the world are going to come from the people (us) and not any one savior. To be the Aquarian Adept is to watch and observe, hope for the best but not necessarily invest all with an external power. We want the highest integrity and quality of life in all ways to manifest in our world and not project Godhood onto any one situation or person. They must be monitored with love, yet extreme objectivity as that is the new Aquarian way.

These power forces still could be used as an instrument for good but there will always be compartments of imperfections, underground agendas and mistakes, *and they can be big (mistakes). The end of 2022 moving into 2023 would be thee key period when powerful decisions could be made to bring positive events into our future, but also the most intense period for manipulations, trickery and desperate moves to capture trust but pied piper the masses into another oppressive cycle. This is not only from the Pluto return but also the wrapping up of the Neptune oppose Neptune, the Mercury station inconjunct the Mars in Gemini in January, and*

*the Pluto return.*

Without having to become a full time investigator flagging every devious roll out entering our society, Affirmations work to support each one of us individually and globally, achieve levels of awareness, quality of life and most importantly, our protection.

**I call for the most powerful guidance to take command of my inner and outer world each day from the infinite Wisdom and spherical Vision I require for continual success with every good thing I truly need to fulfill my life purpose, according to my Divine Presence.**

**I AM calling for the full power of the Divine protection, guidance and insight offered to all individuals now, who desire greater beauty, peace, advanced health, abundance, safety, awareness and the fulfillment of the highest blueprint for humanity to unfold.**

The cosmic awakening revolution symbolized by this Pluto return during the Age of Aquarius beginning, inspires us to be free of compromises and deception which drain so many parts of our abundance, vitality and purpose for being here. These moments of compromise, deceptions and under the table arrangements which have been constant for thousands of years, is what we are awakening to and desiring to permanently change. I trust in the positive potential within this Pluto return period (February 21 2022 - December 26 2022, and beyond, not experienced since 1776). I trust that we are and will lay down another incredible blueprint, another layer of empowerment, we just need to continue to keep watch of new traps and during this era, it will be the misuse of technology this time around.

There are strong astrology cycles (the Aquarian Age would be one along with Pluto conjoin U.S. Pluto 2022, ending December 27, 2022 is another) medium astrology cycles and every day cycles which we discuss frequently on weekly Stardrops.

Pluto moving out of Capricorn (which began 2008) would be a strong planetary event. It will be moving into Aquarius March 23, 2023 for twenty one years. This will be challenging for some and be an extremely wonderful relief for many. Pluto in Capricorn, since 2008 has intensified abuses of that Capricorn power which have operated as entitled and an unbridled drive towards power and material control using any means possible.

Those with integrity have learned to harness the pure power and higher mastery in Capricorn to achieve and maintain whatever our individual inspirations have consistently prompted us to build in our own personal lives. Great strategic blueprints executed in a global sense to secure order efficiency and continual functionality aiding in great advances for society. But the perversions of each zodiac sign is deeply destructive with every sign Pluto moves into as we can see the increasing blatant abuses of power played out since 2008. These Pluto movements are highlighted themes, negative types utilize to increase opportunity to seize the energies of that zodiac sign, in this case we're talking about Pluto.

In March when Pluto moves to Aquarius until 2043. we'll have a new dual force playing out. Our

goal is to enhance and expand the most brilliant positive innovative activities of Aquarius and put them in permanent place with our civilization. Positive efficiency in technology in every facet of life without invasiveness, health and economic transformations without negative activities intervening, transformation of social standards towards humanitarian objectives finding ingenious ways to handle anti-humanitarian anti-love destructive behaviors within individuals and community/agencies. Rising above the tolerance towards limiting humanities' potential and best welfare, while preserving infinite capabilities and freedom. If you see Aquarius as Love as the foundation yet it's deep and intelligent in its infinite outlets, this is the Key Alchemical Formula for turning the Potential of every person which is the base metal into Pure Gold. It is for providing love for the world. There is nothing Aquarius will not transform for the better on this planet Earth.

The perversions of Aquarius age would be every possible form of one mindless group mind, ultra invasive, monitored in every detailed aspect of life via destructive Tech and if you can imagine, negative ET agenda. This is what we are required now to block, transmute and roll back - this is what we're to be awake for. The agenda of taking the spirit out of humanity and furthering the goal of capturing the soul's essence for some, and destroying the soul altogether with other types.

**I call for the full power of Divine Love to enter into the planetary movements of Mars from 15 - 8\* Gemini inconjunct Mercury Retrograde/Direct at 15 - 8\* Capricorn, now through January 23, 2023, and Pluto moving back to its final conjunction at 27\* Capricorn in the U.S. 1776 Natal Chart. Increase our protection**

**from any trickery, unforeseen dangers globally and personally, and surround us all with infinite joy, perfection and intelligent guidance manifest in our everyday lives always.**

Jupiter moving into Aries again on **Dec 20, 2022 through May 15 2023** increases Soul Fire, determination to regain control for light, for the highest best outcomes. This would be considered a significant cycle influencing our lives. As we mentioned last week, this energy supports decisiveness, clarity with our course of action and a direct and inspired motivation to regain control over our life, our future goals, our job, project, family, relationship, health or finance.

In contrast October late through **November 21 2022** Jupiter had moved back into Pisces which pulled us back into some unfinished business and sacrifices, muddling through strange energies we had to successfully swim through to the shore safely. Jupiter moving back into Aries will be a relief and a sign we can have some concrete expectations and outcomes again. Jupiter has immense protection energy. Bold, courageous and idealistic, we should count on this Jupiter cycle to bring forth key movement towards progress, in any area of our lives.

### **The Mercury Retrograde at 24\* Capricorn - December 29 2022**

A Mercury retrograde stands out on its own, it has a unique purpose to bring a specific message to us prompting us to pay attention and observe. *It is extremely helpful* for making a decision or take action on one thing we should do which will support our next steps towards achieving a positive outcome in our lives.

The next Mercury Retro is on December 29, 2022 at 24\* Capricorn and enhances an inner guidance to take care of practical business. Ideas should already be forming in your thoughts now as to how to move forward in certain areas. How Mercury retro works, is just like this. The thought keeps coming back, becoming richer and more specific each day up to the Dec 29 date. See Mercury as a messenger. Sometimes I personally have isolated incidences of communications mess ups, cars breaking down and missing mail etc....in a Mercury retrograde but I see it frequently in other crazy astrology cycles I've been through. Let's change our view of Mercury retro, as it has been attempting to help us isolate one next step on our paths, many times unknowingly. However, I probably would not sign contracts or schedule important personal events to take place during a Mercury retrograde if I could avoid it. Mercury Retro is over January 18, 2023 at 8\* Capricorn.

As Mercury turns direct, it will inconjunct Mars retro turning direct at 8\* Gemini on January 12 to 22, 2023. This cycle will be a big shift in the media, internet intelligence, a very awkward unexpected adjustment in global thinking. Using affirmations to block negative social manipulations in society, to shift into a suddenly new and manipulated unified program, a new mindset would be a possibility...and triggered by some unfortunate event. We're here to progress, week by week into greater quality of truth and life, not here to continue being the receivers of dark deeds. Mars will also be conjunct the U.S. Uranus at the same time in January (last week's Stardrops) and could trigger sudden event. A global or U.S. event could erupt, and would it be real or fake in order to gain some particular outcome?

The positive of this Mercury retro, is the trine to Uranus in Taurus. This takes us to another level of truth and transparency, clarity and takes people's minds to a higher liberating potential. Information spills out all over the place, December it started...along with the Mars in Gemini continuing to increase our intuitive awareness about so many things coming to our minds now.

There's always an electricity, a high vibrational frequency when Uranus is involved. We have already entered that power of moving into higher vision, truth, comprehension of things personal and global since December 1 for sure.

**I AM fully protected, sealed and secure with truth, positive progress and success, fulfilling my purpose as Mercury in Capricorn moves into a trine with Uranus at 15\* Taurus and Mars continues its journey in Gemini. I call for the infinite power of Love to transmute and change all potential negative events and activities back to their cause and core which could attempt to further manipulate our world for the worse, coming from the challenging aspects of the Planetary positions of Mars at 15 - 8\* Gemini inconjunct Mercury stationary retro then direct at 15 - 8\* Capricorn. Replace these challenging planetary energies with a global shift for an unexpected positive revelation, truth and information, a bold approach for success and solutions to all hard situations in life, and I accept this done this hour in full power, according to God's Will.**

Well, I could write all day - I would love to go deeper on some of these subjects, but will have to end with this Mercury Message. In all ways, take your Capricorn Power back, and use these new planetary cycles to brilliantly decide how it is to be done. This is the December message. It truly is the best time ever to start.

Thank you for all your brilliance!! Until next time,

Vondir  
Christine
