

# Solar Eclipses

## **(Taken from past Solar Eclipse Articles with some additional notes added)**

As each Eclipse approaches, we'll go into more detail about what each one will do, but for now, let's review what they might mean for the U.S. and the world. I see these Eclipses as forwarnings, challenges to wake up and prepare for shocking, difficult shifts of reality, but also to grow and take charge of our lives, our planet like never before as weird and unbelievable events unfold. As the Light coming from the Central Sun intensifies its radiation on this earth, the flushing out of what has been here for thousands of years, will get worse.

### **Theme One**

The 2017 August Total Solar Eclipse in Leo created a cosmic mandate for the people of America and people of light throughout the world, to rise up and assume a greater posture of authority over their lives. A greater maturity, accountability with how they are living their lives. It is the test of creating, our free will to do with our life what we will.

It created situations where we had to rise to the occasion and grow up, mature, and engage in a more mature realistic growth. This eclipse may have infused many with more confidence, courage and the desire to create the life they were intended to have.

It was symbolizing the seriousness of taking command of one's life in a higher way and the start of increasing confidence in our ability to perform at a much stronger level in life. It demanded maturity from us, a maturity of heart.

The Total Solar Eclipse in Leo could have also launched a cycle for a greater revealing of the corruption found in all Leo activities – the movie industry, child trafficking and abuse, all things pertaining to excessive pleasure seeking and exposure of corruption in all forms of leadership and education. Solar Eclipses not only highlight issues which must be corrected but release extreme problems surrounding these issues. They could escalate until confronted and challenged.

### **(Three Solar Eclipses in Aries, 2023, 2024, 2025)**

#### **The April 2023 Solar Eclipse in Aries square Pluto in Capricorn**

Because of the Sun/Moon's pressure with Pluto, the square, marked a moment in time where those who were in a position to control the world would now begin their spiraling out of control. This marked the beginning of a dangerous global cycle, potentially increasing conflicts, catastrophes and apparently geophysical disasters, precarious war like posturing increasing and other scary things. This is because the energy from the Great Central Sun has released so much Divine Light everywhere, that those who have attempted to rule the world, whether their own mini worlds or the entire planet, and are experiencing this light which comes as a serious accountability energy for them. When they are hit with this influx of invincible light, they go more crazy and desperate.

In our own personal lives, it is a significant Solar Eclipse at 29\* Aries to end one part of our human identity which is no longer serving our best self, and beginning a new cycle of allowing our Higher Divine Guidance to merge with our consciousness. The ego challenge of this Solar Eclipse beginning April 2023, will be seen playing out in our life and in the world.

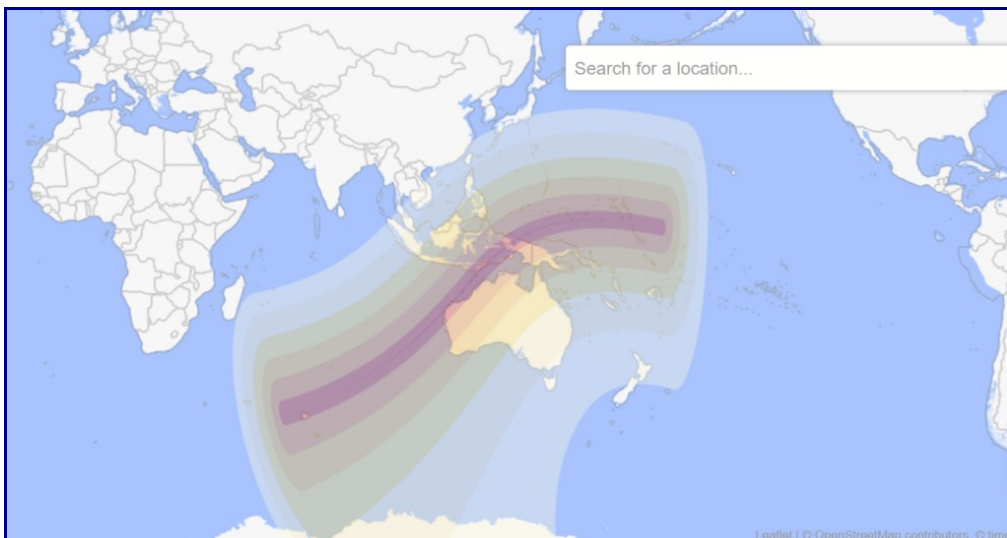

All Solar eclipses force us to handle something inevitable. We must prioritize, hyper focus and take action upon the one thing that absolutely must be addressed, before, during and just after a Solar Eclipse.

Globally, the April 19/20<sup>th</sup> Solar Eclipse is an escalation of danger in the world since it is in square to

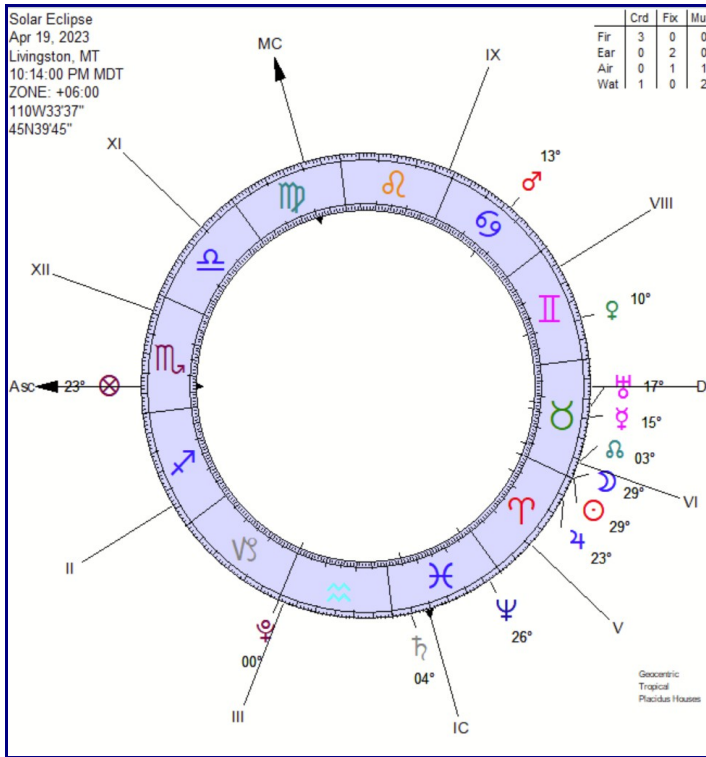

Pluto. Two things occur – an outcry and protest, a taking down and challenging of many activities of abuse of control could truly become worse... (see it as the start of a new extreme intolerance and challenge to those who engage in reckless psychopathic control\_...and the other is the eruption of abuse of power in reaction to this Great Light, which could escalate the situation.

An old era is fast coming to an end where abuse of power and extreme obsession of control which has dominated the world with no consequences. And, no longer a secret.

It would be the beginning of truly seeing old systems fall apart, certain individuals no longer effective or able to get away with things, leaving, disappearing, new answers and activities replacing old.....this is the culmination because this eclipse squares Pluto, which rules, finalizes. Purges, endings of long drawn out Control – (misqualified Aries). The Eclipse remember is at 29\* Aries, the end of the degree square Pluto in a brand new degree, 0\* Aquarius, inaugurating a new beginning.) This is how I'd like to see it, and it will continue in this manner for many years. But I feel this is when it truly is noted by many, that it has started.

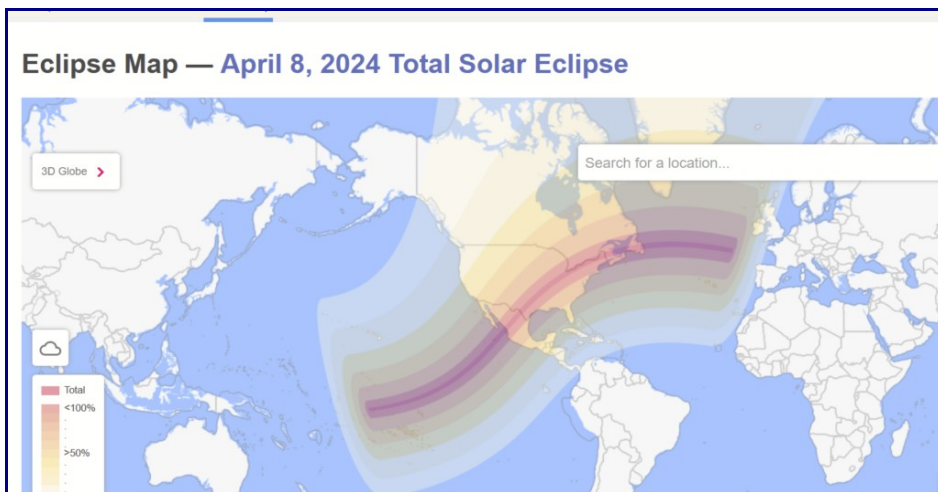

April 19, 2023 Solar Eclipse in Aries.

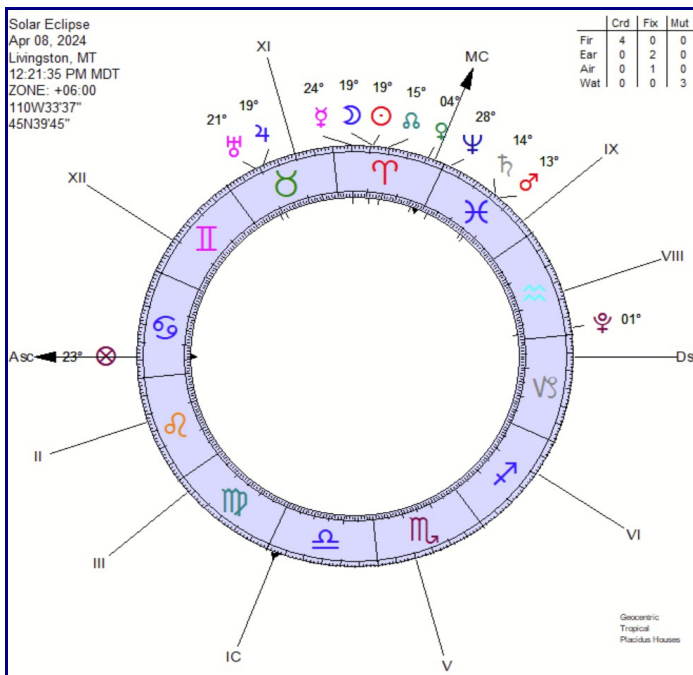

**The next U.S. Total Solar Eclipse will be on April 8 2024.**

**Total Solar Eclipse in Aries occurring in America. Mexico and partial Canada on April 8 2024 at 19\* Aries conjoin Venus, Chiron, North Node and Mercury all in Aries.**

Hold on as you witness events becoming crazier and crazier from this 2023 eclipse to the next Aries 2024 eclipse. Your job is to stay focused on what you can do for yourself and those around you that is within your own control. Concentrating on taking care of ourselves while this escalation of chaos and replacement happens.

The April 8 2024 Eclipse triggers potential communications and electrical energy wars, technology challenges, AI dominating themes for humanity. It indicates a great decision everywhere which needs to be made, as more and more exposure of Alien Tech and not only physical but inter dimensional consciousness, entities and beings have somehow had an ability to interact with humanity, and direct the affairs of people for particular agendas.

The question and challenge would be, what are the people who have the where with all to see how this has impacted our life in this country, going to do about it?

What are the decisions going to be? How can we insulate ourselves from these energies and take control back of our sovereign selves?

Wars, distractions, social control in a variety of ways could be launched.

Again, the issue of Aries control, or be controlled, and who is behind it (the Jupiter/Uranus conjunction denotes the Tech involvement) is huge during this Eclipse.

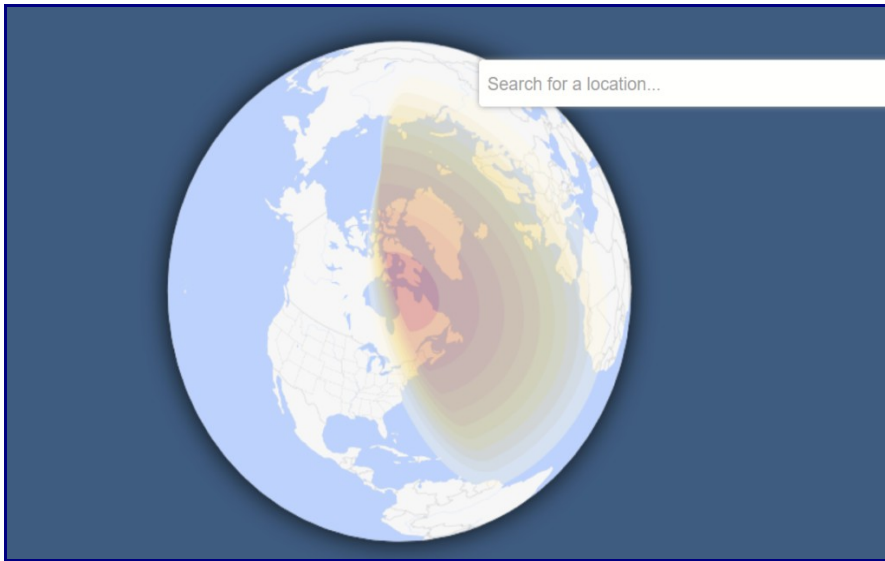

Each of these eclipses instigate higher ideas and a powerful push to replace existing structures which are rapidly crumbling. Yet the push back from those in control will be intense.

Whoever is in control of the old systems could attempt to pull out all the stops unwilling to let go... more psyops, lies, distractions, deceptions and dangerous actions.

Focus on what you can control in your personal life as each March/April comes around for the next three years. It will speed up, both sides, but the new I believe will replace the old.

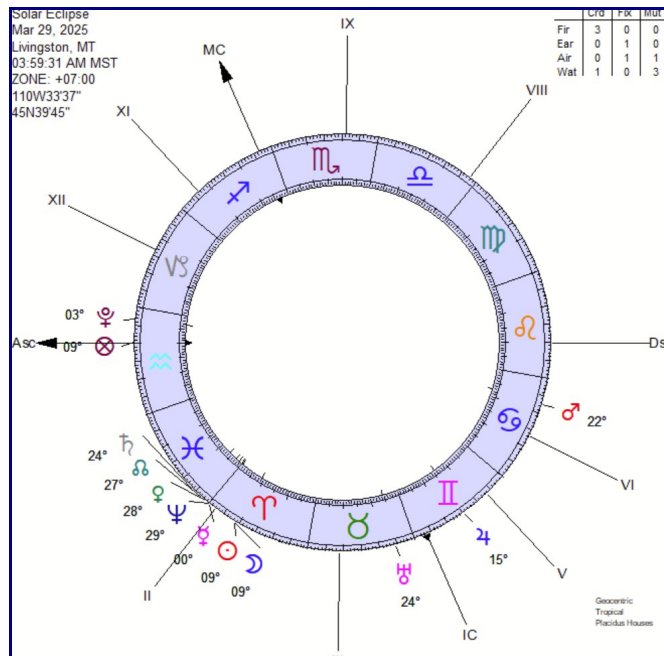

**March 29 2025, another Solar Eclipse in Aries reveals even more truths as to what has been controlling the world.**

Partial Solar Eclipse in Aries, [March 29, 2025](#) (Europe, North in Asia, North/West Africa, Eastern part of North America, North in South America, Atlantic, Arctic)

For our personal planning, this eclipse marks a time to have much of your most urgent needs handled, and be physically in the best place you could be in. You'll look back and realize how much you have accomplished in wonderment, and how glad you achieved greater control over yourself and your affairs. Some are concerned of more earth changes, earthquakes and eruptions of volcanic activity, weather patterns becoming even more extreme. Because of the array of planets in Pisces, increase complications with illnesses, viruses, medical intervention and dealing with society and contagious illnesses could be more of a problem. But because Pisces also deals with partial truths and partial hidden factors, ambiguous issues and layers of agendas, confusion over what is real could be the primary theme.

**2025 March 29, Partial Solar Eclipse in Aries, below...**

I see these as three phases, 2023, 2024, 2025, where *two parallel worlds are in a race to supersede the other.*

*The August 2017 U.S. Eclipse in Leo was to initiate courage and a greater level of maturity in order to handle the upcoming intensities of these next eclipses. It was to strengthen our heart.*

(For the Aries Eclipses, this is meant to be an impersonal description of the positive and negatives of Aries, not to be meant to describe Aries individuals, it's a consciousness.)

The one, a perversion of Aries control and complete dominance over others coming from an old outworn hierarchical position, whose values are not in line with the awakened people of heart on this earth... and the other, those who are ushering in an era of higher minded governing based upon intelligent humane ideals in every way of life, replacing, upgrading and enhancing activities which support humanity's rights for thriving.

The 2017, 2023, 2024 and 2025 Eclipses all indicate serious Cosmic Events for humanity. It's wake up time.

This eclipse in 2023 April 19, as you can see, is squared by Pluto, which has intense indications of an end to something big..a final deadline, a closure, an elimination of something dark which must go. To me, it is this 2023, 2024 and 2025 which is our most obvious turning point, the final signal sent to those energies in physical and non – physical that their time is over. I see it also as our most crucial time to get our stuff together wherever we are still vulnerable, let's clean it up and get prepared.

As always, it will take time to unravel and disengage from that control, months, years, a decade. But I do feel, this April 19 2023, is the moment, call it the last straw, of opportunity an old guard, not a very good one, has had a chance at being good stewards in whatever arena they were in control or the process of dismantling and replacing them will begin. Personally, we will go through this also in our own private way. As I said, we will go deeper into each eclipse as we come up upon those time frames, but for now, the big picture seems to be a strong theme from 2017 on through March 29, 2025 to get ready for an acceleration of exposures to how deep it goes with who has been in charge of humanity, and the intense motivation growing to regain control back over our country and the world. How this can occur will be on every level. To continue to take charge of our own world, our own mental positive energies, our constructive higher way of life to the best of our abilities is a great start.
