The table above, shows Uranian Hades conjoin U.S. Sun, a rare never having occurred before in the U.S. transit, attempting to severely challenge and compromise the health and well being the vitality of America’s real purpose. This cycle would burden the world as many will experience energetically, a heavy oppression attempting to threaten and take down completely what America’s original Blueprint represents, from within and without.

Simply adopting an attitude of extreme determination to ride through whatever storm is unfolding since last August-October 2023 up through May 2025 even if it feels as if treading water, personally nationally and globally, would be the best advice for this one, as I have been through it, and it’s hard. Imagine if a country is now receiving this rare conjunction, the oppression and determination to dismantle and oppress an ideal, a country or person, projecting constantly upon that standard

or ideal destructivity, threats and damage, in order to stop the highest outpicturing of it to be realized.

“Affirmation...I call for the most expedient solutions to be put into place to reverse all degeneration of America's true identity and purpose on earth. I AM calling for shields and divine intercession and protection around all positive activities within this country and the world, Reverse, collapse and seal off in its entirety, the negative impact of the Uranian Planet Hades at 12 -14\* degrees Cancer, conjoin the U.S. Conceptional (1776) Sun at 13\* Cancer, and Sirius at 14\* Cancer.” \*1

*\*1. “Sirius is of the nature of Jupiter and Mars. It gives honor, renown, wealth, ardor, faithfulness, devotion, passion and resentment, and makes its natives custodians, curators and guardians. It also gives danger of dog bites, and two examples of this effect will be found under [Procyon](#). [1]  
 $\alpha$  Canis Majoris. A binary, white and yellow star. The main star belongs to spectral class A 1. It has a companion star, Sirius ‘B,’ a white dwarf star that rotates around the main star every 50 years. This is a dwarf star having 90,000 times the density of our Sun. Sirius has twice the diameter of our Sun and is 9 light years distant.*

*The native is ambitious, loves to exercise ‘power,’ and has a grandeur of outlook. Good for business prosperity, custodial guardian, honors, wealth, and renown. Native receives favors from superiors and friends. Questionable writings, speeches, and statements could bring latent honors. Negatively: Native is subject to problematical actions, accusations, just or unjust.*
