

2026 Overview: The Architecture of a New World

Saturn–Neptune at Zero Aries: The Spiritual Reset

I want to begin this 2026 overview with what I consider one of the most **bold, decisive, and spiritually significant alignment of our lifetime** — the **Saturn–Neptune conjunction at zero degrees Aries**.

Saturn emanates a responsible, grounding crystallizing influence. It contained, sets blueprints, systems, boundaries and expectations for performance in our lives.

Neptune is Divine Love, the Holy Spirit, inspiration, magical visions and experiences. It deals with ideal concepts and actual real time releases of light with a particular purpose in our lives.

Saturn and Neptune started moving together last June – August 2025, but did not connect exactly on point....Also, these two planets have likely **not conjoined at exactly zero degrees Aries for thousands of years**, estimated around **4360 BCE or earlier**. Whenever they merge in unique zodiac signs every 36 years, * but not at 0 Aries inc 4360,* Saturn crystallizes into a new cycle a sort of blueprint working through that special particular zodiac sign it is in, to bring about a pure ideal of intention and behavior, in the world and in us. Every 36 years. But now....

Saturn/Neptune are at Zero Aries which is a World Power Point Reset, literally – and is the great new beginning, a new starting point. It is cardinal power point of **energy** — representing a re-set with regards to our identities.

So this cycle asks each of us:

“How is your search for fulfillment, agency, and alignment with your true higher identity going right now? Are you feeling a greater drive to discover who you really are and how you are to re-arrange your life to conform to this new Identity of Self?”

Timeline of the Saturn–Neptune Cycle

Normally, Saturn/Neptune come together every 36-year cycle, but this one is especially rare because it occurs at the very beginning of the zodiac.

Initial opening phase:

- June – August 2025 - Saturn and Neptune
- This opened the doorway — The beginning for all of us to begin taking action on what we needed to accomplish, aligned with our ideal outcomes we wanted....and possibly the start of a process of dissolving of old identity.

First Aries activation:

- **June 9 – August 24, 2025**
 - Saturn at **0° Aries**
 - Neptune at **1–2° Aries**

While not exact, this proximity is **close enough to launch** bold beginnings, and long-term intentions.

It was helpful for capturing....

- New visions of purpose
- A stronger desire to live in alignment in a better life situation.
- A boldness toward embodying one's real self and integrating with our Christ Higher Self, a purer more real identity, replacing our dependence upon old ways of thinking and! Feeling somehow trapped in patterns we can't break free from.

Exact Saturn–Neptune conjunction at 0° Aries:

- **February 7 – 28- peaking February 21, 2026**

Energetic peak window:

- **January 18 – March 10, 2026**
- This is when many people feel the shift most strongly

Final active release:

- **February 8 – Peaking February 21, up to March 5, 2026**

Although the conjunction peaks here on February 21, its influence **continues as long as Saturn remains in Aries**, through **2028**, and sets a standard that carries forward until the next Saturn–Neptune conjunction **36 years from now**.

Spiritual Meaning: The Christ Self Embodied

Because Aries represents in the highest sense, the Christ Self Identity – when the planets Saturn–Neptune move into 0° zero Aries, this symbolizes the **integration of higher identity into our every day reality**.

(I elaborate on this concept in the video included with this post.)

It can usher in an easier flow into our **Christ consciousness integrating into our thoughts, assisting us in moving up higher with our choices**.

This cycle strengthens:

- Direct guidance from the Higher Self
- Trust in the I AM Presence
- A release from over-identification with ego or over mental analysis

Aries brings:

- Innocence
- Courage
- Inspiration
- A willingness to begin again, to restart our life on a higher ground.

Saturn crystallizes the Neptune divine ideal.

To me, this is the most significant aspect occurring in 2026. it's going to help us move into a higher more reasonable loving place, achieving more things on the outer, because our priorities are being re-aligned along with this internal integration of our Higher Self.

The next time Saturn/Neptune will be in the Christ I AM zodiac sign of zero Aries, which marks the very very beginning of everything! Won't be until possibly the year 4,700 or there about.

Let's move on to the next significant alignment for 2026!

Mars Retrograde: Always a sign of aggression or war?

- Trines U.S. Saturn and Ascendant (**4–6° Virgo**)

Highlights:

- Advanced technology
- Functional systems
- Preparedness and precision

This cycle of Mars in Virgo actually starts October and continues into July 2027. This is typical for Mars to be in one or two zodiac signs this long, and it can wear one down, with its relentless driving energy directed into Virgo, the sign of perfection, industrious activities, work, employment, expertise, quality service, body/health routines – anything related to intense increase of standards and numbers in Military, along with tech advanced skilled people involved It' absolutely exhausting.

- *The Mars will sit on the U.S. Natal Ascendant – driving, driving driving several projects, plus tech, plus economic preparedness, plus military to a breaking point as if there is some huge thing everyone is getting ready for.*
-

Venus Retrograde: Revaluing Love and Commitment

Venus Retrograde

- **Sextiles Jupiter at 22° Leo brings people closer together...involves global and possibly U.S. Polarizing away from some organization, some old situation as it begins to oppose the U.S. Sun, along with Mercury retro/direct opposing the U.S. Sun.**

Themes:

- Emotional truth
- Trust
- Sacred investment
- Relationship and financial clarity

Mercury retrograde and the Full Moon November 2026

Here is another layer - Mercury will also be retrograde during these last months of 2026 at 20° Scorpio in October 24 2026 – Nov 12 - 13th. So now we have two retros beginning, adding to Venus, October 3 to November 12-13. Both Mercury, the planet of new insights in order to make important decisions, and Venus, zeroing in on something one values and desires to cherish and act on...are both peaking together moving out of retrograde – which means they are both appearing stationary in the sky, together on November 12- 13.

This theme could have us witnessing strong guidance to address serious issues in the U.S., and make a call or a clear decision which way to move forward.

This can also be felt in your own personal life, where one was stuck, by November 11, you could then receive support to move through that issue, in order to change something to being easily workable.

This Mercury stationary ends up opposing the U.S. Sun at the end of its cycle – from November 4 – 23rd. Peaking November 12-13..... At 10° Scorpio – which many times causes a separating way from a collaboration or relationship. This is not happening in our personal lives, this is only in the U.S. Chart.

This moment of November 11, we would witness the releasing of a powerful energy regarding a negotiation or decision finally completed...the task is finished. Again, that would be around November 11.....as mercury and venus move out of retrograde.

The 3rd interesting fact is that Mars is entering Virgo about to turn retrograde, on the same timeframe – **Starting November 25, 2026** which intensifies a decision, causing it to be even more important – launching a project, a massive project which could be involving high degrees of technical precision. It would be considered another new cycle starting which continues its thrust in the Sign of Virgo up into July **2027**

...And in addition, 4th planetary theme would be that there is a **Full Moon in Gemini square Mars** culminating on **November 24, 2026**, which always symbolizes the fullness of an event coming to a head..

So whatever this big deal is with the **Mars retro in Virgo** – I place that at the head or top of priorities to watch out for, from **October through January 2027** .

- the subthemes which line up under it, would be the Mercury and Venus retro – Mercury = decisions, discussions, end of November separating out from a relationship, disassociating with a nation, leader, or plan – and the U.S. Holding its position - and Venus retro in Libra, smoothing over negotiations, attempting to maintain harmonious transition of the new situation.

–

Then, the next in line would be The Full Moon symbolizing on November 15 - 24th exact, an aggressive interference, an aggressive act or intensifying some person/agency or organizations' position they take against whatever the U. S. moving intensely into position – during October up through November, ending up in a potential incident – that is because mars is involved, making a hard aspect to the Full Moon (the Sun and Moon at 2* Sagittarius/Gemini). Again, that is peaking on November 24.

If I were to summarize 2026, it is a year of incredible advancements for the Brotherhoods' greatest influence on humanity – in all ways – and still, to guide and direct the correct discernment, block and roll back interference with loosing our humanity , what it means to be a human via AI and social media dependency – addiction.

It is to maintain smooth negotiations, and not abuse the high technologies we may possess – but continue with extending support and negotiations -

To protect our country and other regions with this high technology for future potential events coming esp 2029 and 2033 and personally to apply one's time energy and ritual for integrating with our Christ self, Our Presence and the Masters any possible way we can on a daily basis. Stepping up our Chelaship, taking it more seriously – in love.

Okay everyone – This is the BIG PICTURE. As usual, we'll talking about segments of this theme and more smaller cycles, throughout the year. If you got through this release, you are AMAZING!

One last thought....

In closing, please know, that I know, the world is a mess. There are continual forces escalating their interference with the highest potential of these planetary energies playing out. They mutate and shapeshift their forms, agendas, and influence, because their very existence depends upon it. There are downsides and negative energies to every one of these planetary influences in this article I wrote about. They would be all the positive releases, used and misused for dark

purposes, attempting to weave these threads also into society – such as the addictive replacement of a human being integrating with the Christ, with AI and an ever increase of technology instead.

This is our greatest threat, losing what it means to be a human, with the potential of walking into the path of initiation becoming a divine being. This tech would rob humanity of this potential, and insert itself into our humanity world instead.

Always welcoming your feedback! Happy 2026, Christine
