Planetary Cycles for February 15 - 28, 2026

Welcome to February 15 Stardrops. Okay, here we go....

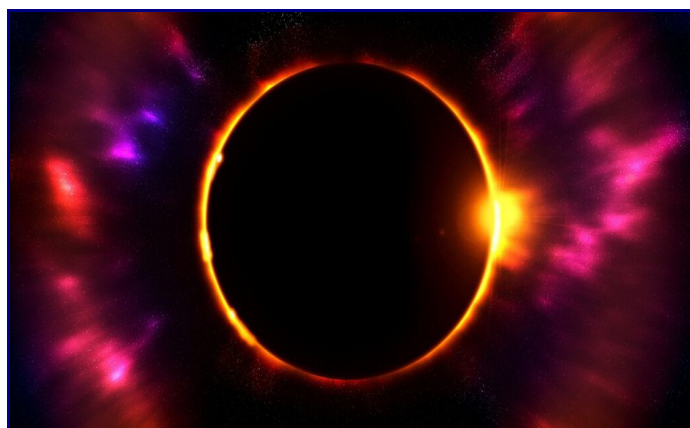

February 15 – 17 Mercury in Pisces trine Jupiter in Cancer We could all feel a relief during these days, where challenging tests of patience, stronger levels of anxiety from the previous past weeks, makes way for a gentler emotional reprieve. Quality time spent with others. Mercury involves information, learning something new, digesting content, data, and in Pisces, deeper insights which provide a bigger picture for our inner peace and comfort. When combined with expansive Jupiter in Cancer, issues which provide positive meetings, conversations, interactions with others involving security, safety, preparedness could be highly emphasized now.

Any activities which help you plan, make smart financial decisions, feel intuitively and factually guided to move on a plan for your ultimate well being, (and for loved ones) is strong on these days.

February 15 -16 Sun in Aquarius square Uranus in Taurus This pressure to step up and evolve, open one's awareness to difficult issues, to fix and improve on existing lifestyle, routine activities and regular standards all must be double checked now and upgraded. This isn't a time for **lackadaisical** attitudes – in combo with the previous Mercury trine and the upcoming Solar Eclipse on the 17th, Sun square Uranus urges us to take a hard look at what we may have brushed off or ignored which we might regret later.

February 17 - 18 Venus conjoin Node at 8-9* Pisces Take advantage of these few days for planning get- togethers, meaningful sharing and time spent with valuable friends and family – as Venus magnetizes love, appreciation, generosity, helpfulness and even healing energies swirling around for your benefit this day. In other words, it's time to have some fun and take a break!

The Total Solar Eclipse at 28* Aquarius square Uranus at 27* Taurus. February 17, 2026

Early February up through the 28th, **exact February 17**, the New Moon in a Total Solar Eclipse will release its new guidance of Aquarian Virtues.

This unassailable energy permeates everywhere, every person, institution, agency, leader, region and activity on the planet and will impress us with the sign it is pouring through, which is Aquarius.

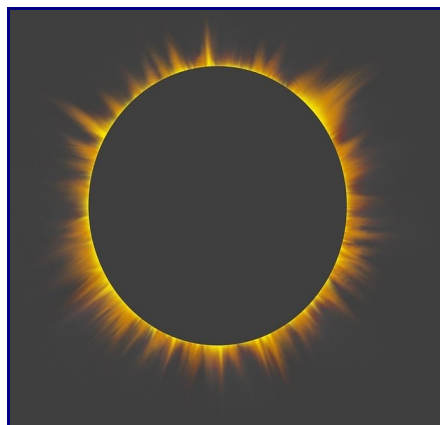

Aquarius is extreme complete TRANSPARENCY. Its nature is to change what is mediocre, stagnant or useless. It upgrades, improves and accelerates, forces evolution of the very atoms and electrons making up physical matter, humans and human intention. It is like a comet electrifying conversations, thinking patterns, solutions, resolving and transforming. It is the sign of honesty, change, and Alchemy.

Personally, expect a natural organic movement taking over your decisions, actions and intentions each day as we walk through the rest of this February. It is to improve upon your life and bring you a more functional freeing situation.

Expect some changes and possibly challenging situations to face for some, when Uranus also squares the Aquarius Solar Eclipse – look at this period as a good thing – to upgrade, face the truth, make the necessary changes and take the necessary steps towards ultimate freedom, which is very Aquarian.

Globally, expect an even greater shocking eruption of the abnormal, aberration of human behavior and human beings – truth about any thing which just seems unimaginable. Even after what has already been exposed. Any persons in public influence remaining after the past few weeks still dismissing what has been going on, or taking it as a small thing, will soon realize first hand, it wasn't a joke.

Expect news about people and situations which are not what we wanted to know. It's okay – as all the truth about everything will level us all down to ground zero – which puts humanity in a truthfully honest and Aquarian state of mind. All divine humans can evolve into a paradise by putting one's faith, devotion and worship upon the Higher Presence, and the Divine All THAT IS rather than ignore, tolerate or enable the entities which have filled the earth with darkness for so long.

AFFIRMATIONS

"I easily choose light, truth and freedom from all worries, physical material restrictions, constraints and attempts to preserve my lesser self only, in this plane. I welcome love, trust, acceleration and aspire towards my ultimate freedom from all which could take me down."

February 7 - (2/20 exact) – ends March 4, 2026 Saturn conjoin Neptune at 0° Aries For a more deeper description of this EPIC CYCLE, check out our last Stardrops [HERE](#) – (The Architecture of a New World). The short version of this incredible time would be to pay attention to how much you have changed in the past few months leading up to this important planetary aspect. Possibly even since June – August 2025. *The power of Neptune's higher visionary ideals we intuitively want to feel, be and experience in this world, merges with Saturn. Saturn can crystalize and make this ideal vision a new permanent reality – an integration with our Higher Self Identity. I highly suggest reading and/or listening to the Article/video going deep into this important period, and the update for the year 2026 and how it could impact you.*

February 20 – 23 Venus in Pisces trine Jupiter in Cancer A beautiful time for bonding, love, and spending quality time with valuable people doing valuable things! This cycle enhances the good feel gratitude in our hearts for what we do have which is precious right now.

It enhances good outcomes, success and offers deeper bonding with our time invested in people. It increases success with our projects, relationships, creative work, music, art, culture and any thing which could be a shared vision of ideals we would want to bring into reality.

February 26 – 28 Mars in Aquarius square Uranus in Taurus Our planet of urgency, assertiveness and making waves, challenges lies, deception, groups, communities, organizations and financial institutions . It could disrupt markets, metals, disclosure and a continuation of challenging economic financial activities come out, warning the public of changes coming, which are inevitable.

The information which erupted with all planets in Aquarius, which began end of January, peaking on the Full Moon on February 1 square Uranus, (read below) opened the door to an entirely other level of fallen network society the common people knew nothing about – a rapaciously monstrous race of non-humans.

Right now, with Mars in Aquarius square Uranus in Taurus challenging and continuing to sharply expose even more levels of misuse of money and diverting of money to other underground projects – along with the Solar Eclipse February 17, for the first two weeks amplifying this theme of even more shocking hard to believe activities going on, on our planet earth, Mars square (Feb 26-28) simply adds another level of pressure to what has already begun end of January 2026.

Potential eruptions of revolutionary activities, violence, aggression and organized attacks directed towards prominent people, and places of control and power could happen.

February 25 exact (active February 15– March 20, 2026 Mercury Retrograde at 22° Pisces - With Mercury turning retrograde in Pisces, our personal lives will be guided by a higher thought of making some sort of sacrifice, and going down a pathway of facing maybe one habit, one glitchy thing we have going on inside of our psyche, we just haven't been able to overcome. Let's dive into the new Mercury Retrograde...

Mercury Retrograde in Pisces

February 25, 2026

From February 15 – March 9, which is the strongest time for the energy of Mercury retro trine transiting Jupiter in Cancer, the one thing you desire to get on top of could be healed and overcome courageously during this period of time. No matter what you have been ignoring, dismissing, or have doubts, dysfunction, fears, paralysis (these are all negative Pisces conditions) this Mercury taps you on the shoulder, and downloads a repetitive thought-form into your world, to take care of something now.

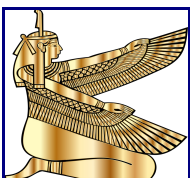

Mercury retro also conjoins Venus in Pisces from February 25 – 28, brings an additional support for all psychological healing – compassion, medical support, emotional transforming and baring one's soul. It is a spiritual transcendence energy which would evoke strong inclination towards prayer, affirmations, visualizations, fasting and other meditative practices which could heal the world.

Many can experience a universal "knowing" during this time, about light vs darkness, and reframe what it means to be here on earth. One's purpose could be sharpened, questioned or embraced. Old patterns, old preferences, cares seem to melt away and new view of one's priorities take their place. Watch for a repetitive idea coming to your outer mind, attempting to form into an action plan throughout February. It should be compatible with how the New Solar Eclipse is also influencing you through this time, for the better.

February 27 – 28 the Sun conjoins Node A positive time to re-think two main things: #1, Your finances, security and is there anything I need to do to better my security? and #2, my circle of friends and support - my community and the people in my life....simply taking in who are your most important people in your life and what they mean to you, how can you enrich your involvement with them. The Vitality and radiance of the Sun on these days can release a re-alignment towards that higher vision of Divine Love, and the Presences of the Archangels, Divine Masters of Love which we need right now more than anything. Personally, aligning ourselves with activities that enhance our attunement to a more refined consciousness, attention to beauty, the divine – would be the highest inspiration, then all the rest follows for our protection.

AFFIRMATION

My Medicine is The Great Divine I AM, The God Presence which Sees All, Rules All, and in all things works out its perfect justice. I AM aligned each day with this Balm of Healing, knowing my worth and value is eternal, forever vibrant. I AM receiving all the love, healing, friendship, prosperity and perfection and am grateful!

Part II

There is some kind of conflict which has been going on forever – a war going on between seemingly materially and psychically superior beings who have a dark negative agenda, devoid of a flame, in conflict with other lesser malevolent type races of beings with various degrees of agendas. This is the real race war.

Many times we are in the way and the more light we have inside of us, can be seen as an actual interference to them, and a curiosity...this war spills out all over humanity infecting, using humanity, yet somehow, shields and vortices of light surround many beautiful souls so they make a difference.

What a battle we are in where we also are striving to overcome projections, overlays on our feelings, moods and circumstances, causing us many times to feel like an ineffectual person in the midst of this Grand Play.

To lock onto higher purposes, realities, goals and higher vibrational activities each day, is our challenge.

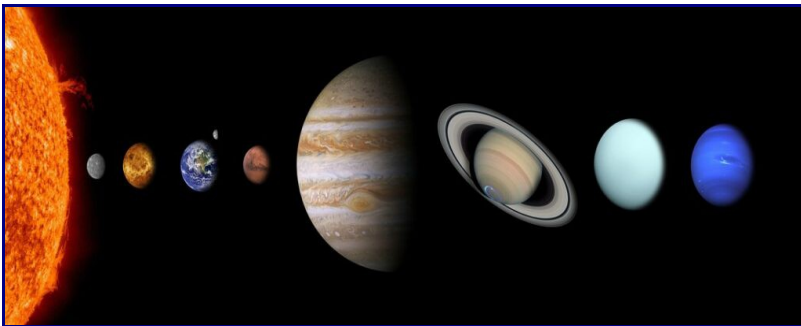

We do this in many ways, one, is realizing our choices each day are important – and they are either raising us up, or entangling us into further limiting lower situations. We all want to be free – and many struggle comprehending what on earth is going on down here!

Studying planetary movements can help us navigate, and can support our journey.

Every Zodiac Sign has a positive upper vibrational behavior, and theme and negative themes which can be used for our success, or to challenge. Each planetary and moon body can be also manipulated by darker forces. It's good to grasp this awareness, and thus, the Affirmations. So when we see a big theme playing out with several planets lining up or aspecting other key planets, it's time to elevate the positive potential...(what we covered in the last article, the 2026 overview).

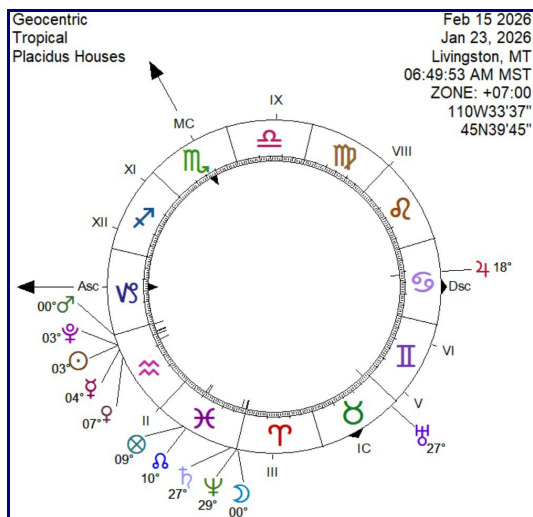

What happened February 1 2026?

Several Planets moved into Aquarius, along with Pluto. January/February 2026, and how it influenced the release of the Jeffrey Epstein Files.

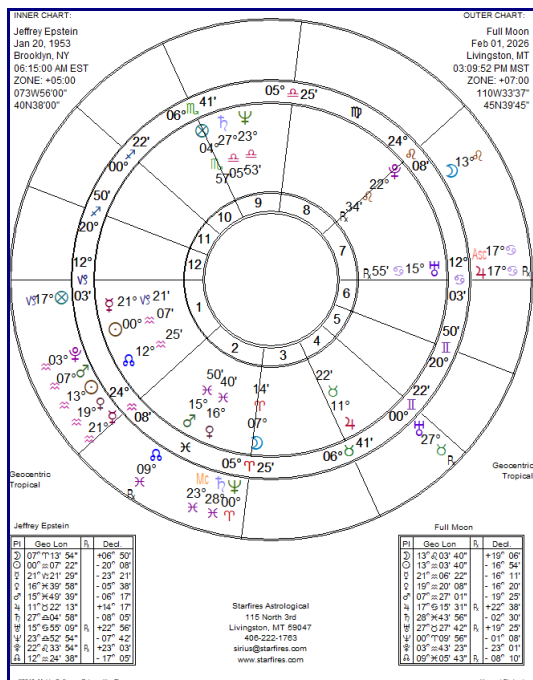

Let's jump into the most recent trends which simply, changed the entire world.

The planets Pluto, Mars, Sun, Moon, Venus and Mercury all transited between 0-16* Aquarius, from January **17**, to **January 23rd**, and **this** is where it all began. This cycle began with Venus entering Aquarius, **January 19**, the Sun entered Aquarius, January 19, Mercury January 20, Mars January 23, then moving into the Full Moon in Aquarius/Leo, February 1, 2026. (chart below)

Next , all of these planets began moving towards Jeffrey Epsteins' North Node –**January 27,..**

(continued...).... Venus and Mercury, **January 30, 31**, the Sun in Aquarius, the Full Moon February 1, next planet Mars, **February 6-7**, all conjoins JE's Node. (see above, in the chart - all the outer rim planets gathering on the left side moved into Aquarius, over that symbol in the inner wheel, in the 1st house which looks like a set of headphones, that is the North Node and it's a big deal.).

One's North Node is suppose to be a magnetic pull towards learning something vital in this lifetime, and for a public figure, its their ability to impact the public through their personal expression, thoughts, behavior and personality. It create trends or massively influences society in some way. In a chart like JE's what kind of Juggernaut trigger would all these planets uniquely aligned on his Node at this time, opening JE's world to our world?

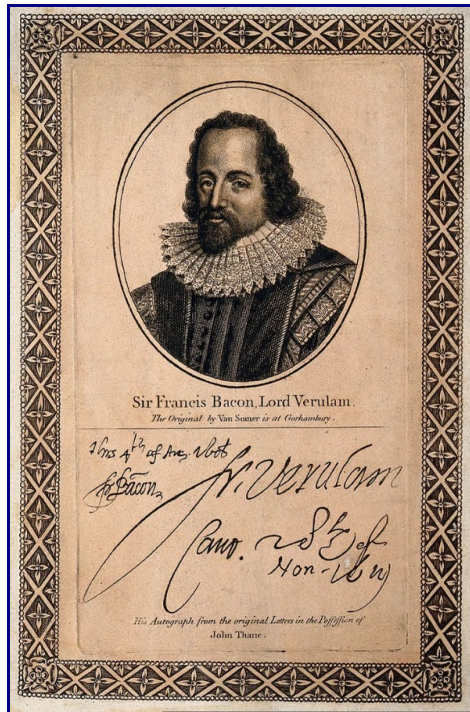

We saw what these planetary alignments did. Not only did they rip open an ugly world for all to finally see, but the Full Moon in Aquarius/Leo, square Uranus on February 1, was the final trigger, and added an additional force of energy to escalate and ensure the outcome desired, could occur.

Growing up I had a crazy belief that I was witnessing in my childhood, some kind of a military operation with Angelic forces. These Angelic military and secret service beings would intercede for me, navigate me through the worst situations and speak to my heart telling me what to do to get out of this or that situation. I'm sure many of you could relate. I feel this has just happened to humanity.

The Angelic warriors would execute clever tactics against dark energies, a drama which wasn't just in my own crazy little head, I didn't fantasize this, but was evident in the physical, I did truly need intercession. Most of the time, life went on with no incidences.

I feel we are in an escalated activity of this kind of war right now, a spiritual military event and humanity is the prize...there are incredibly positive forces **using** the power of planetary magnetic alignments to accelerate earth and all humanity now. It's like a timing thing, waiting until particular alignments take place, so they can have the full advantage of the power of these energies. The planetary positions are showing us what these Angelic Warriors are doing, and also them using the timing to transform a situation.

JE's Node is in his 1st house of personal self interest, his power is all about his own personality and power of influence in Aquarius, an identity of elite revolutionary rebel involved in the ultimate Aquarian (anti-Aquarian) activities -including a renegade agenda to interface with Science Fiction movement, his own break away mini civilization, even some speculating trafficking off world, or into underground mass cities. This energy of the Node in Aquarius in the 1st house, acts as a bigger than life, person connected to ancient Atlantean tech, (evidence he was seeking and very Aquarian) and utilizing it for the future. The future dependent upon recruiting and interfacing with high level scientists and engineers, geneticists and all sorts of *useful people, involved in cloning, space, ancient antiquities, future off world activities, connected with people over the entire world, the oceans, and beyond...connected to those who could provide this sort of experience for him personally, enhancing his self image and his vision of what could be..* He is ending up as a major false imposter of Saint Germain, an anti-Age of Aquarius person, an Anti-Renaissance man. He was insane, and something had to be purged, revealed and stopped in order for our entire humanity of potential to move into the Aquarian future, during this 2100 year cycle which is just starting.

Many believe Saint Germain was Frances Bacon - A true **Renaissance man** with a vision for an Aquarian Society.

A Renaissance person is someone who is skilled, knowledgeable, or accomplished in many different areas — not just one specialty

It describes someone who is:

extremely bright, genius, humanitarian focused, intellectually curious

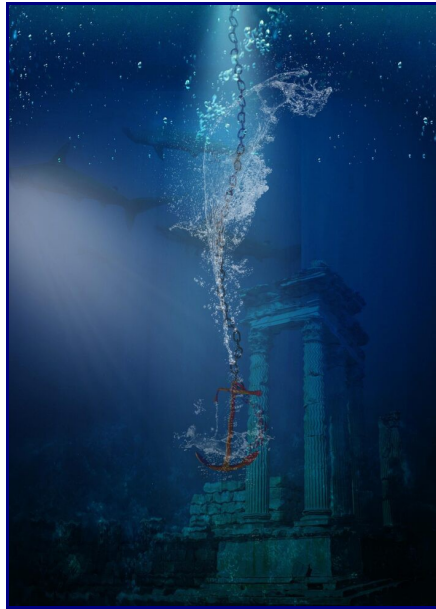

multi-talented, almost superhuman in their ability to uplift and assist in the evolving of a society. They are well loved by their people, and have a magnanimous heart for humanity.

Well-rounded in one's experiences, influence, background, upbringing and education.

competent in arts, music, sciences, and practical life

Since we are moving into the Age of Aquarius, it makes sense to me, the Anti-Renaissance imposter, had to be flushed out and purged, before we could truly lay down the groundwork for such an advanced age, and the rebirth of the earlier purer Atlantis Society come again.

"Reading suggestion: Frances Bacons' "The New Atlantis".

The 1st house of JE, is the house (the environment) of his personal view of himself, – aggressively going beyond limitations. So whether dead or still alive, these planets we have been covering (above) opened humanity up to his world for all to tear apart, connect ALL THE DOTS, and bring true Aquarian transparency to us all, which is Freedom from those who would just keep ruining everything underneath our new Aquarian civilization – Basically between **January 17 ...peaking February 1 on the Full Moon (the crest of the wave) on into February 2026.**

Pluto in Aquarius' Influence

Pluto as been teasing the release of the files, at 0° Aquarius, as soon as it began leaving Capricorn, **April 2024.**

Pluto then made an exact once in 248 year conjunction with Jeffrey E' Sun – **March 3, 2023 to November 26, 2024**, The last time Pluto would have been at 0° Aquarius, was 1777 to 1779, just to give one perspective how uncommon this Pluto energy is.

Explanation of Pluto crossing over a person's Sun....

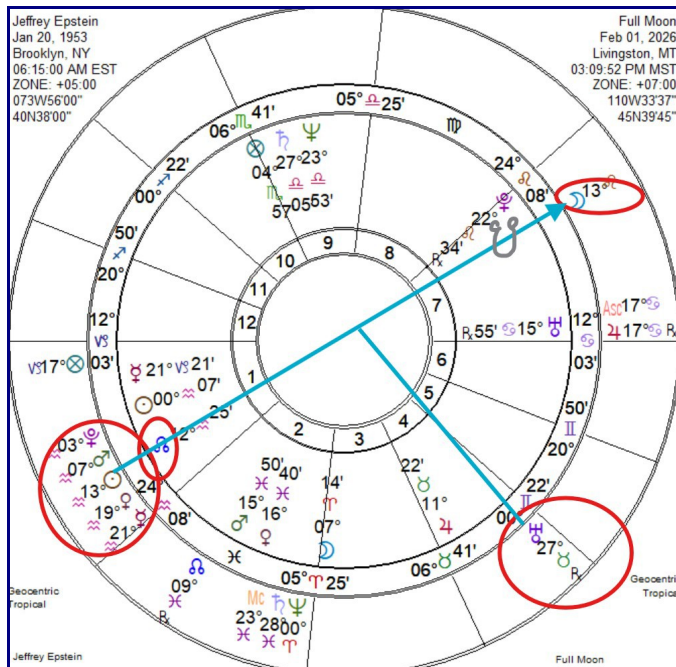

January 19 was the start of five planets in Aquarius, including the powerful Transiting Pluto. Pluto had already begun the process of opening the door for the demand of truth (JE files) back in 2023/2024. From this January 19 – up to 23rd Pluto along with all these Aquarian planets, just triggered his Sun which had already been activated by Pluto for two years. The weight of so many more planets on his Sun, one by one triggering, set off an action which couldn't be held back. So even if a person is not here, (as they say) the chart can still be affected by transiting cycles.

By the date of February 1 Full Moon, the Sun/Moon lined up exactly on JE's North Node – in Aquarius, which remember, deals with how this man's presence massively influenced and networked with all these people, influencing society, finances and global social themes going on in the world – February 1, triggered the spill over of events and at a particular time everyone seems to be on board with moving forward with this release. So all these truth and transparent revolutionary energies in Aquarius activated his Aquarius Sun and Node in January into February on these exact dates. This is what I see happened astrologically which triggered this incredible event. Many have been aware of what has been going on, since Bohemian Grove expose, wiki leaks and so on...2011 – 2016 and now. But this was a big astrological cycle.

When the planets crossed over his Node, again, was January 27 – February 6-7th. The files were public exactly on January 30, -February 1, 2026. All I can conclude, is that the nodes involving every aspect of his Aquarian connections globally, and his eccentricity was opened up by all these planets, and the Full Moon in Leo/Aquarius, exactly conjoining his Nodes, which is like a wave or river overflowing its banks, there is no going back now.

Exactly on February 1, we had a Full Moon in Leo, opposing transiting Sun in Aquarius, square transiting Uranus in Taurus, causing shocking unexpected events, and the culmination or epic crescendo of information disrupting the world. It can unleash unconventional abnormal plethora of darkness from his world...(see chart below)

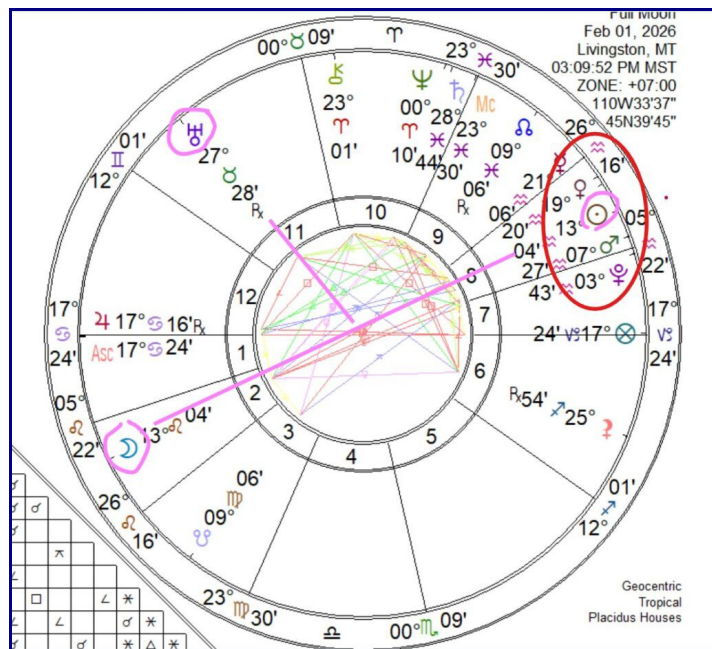

Full Moon around JE Chart on February 1 2026

The Full Moon in Leo at 13°, is literally conjoined JE's North and South Nodes – unbelievable! - this energy targeted his past momentum (South Node) in the sign of LEO at 12°, in the 7th house. (the right side circled in RED) The Full Moon was at 13° Leo.

The 7th house represents all his collaborators, numerous arrangements with prestigious, elite and eccentric, powerful entitled individuals – (Leo/Aquarius) promises made and his performance, role (Leo) in this life with so many thousands of relationships. (7th house.)

So the Full Moon activated that record or compartment in his world. The other side of his chart, the left side *1st house symbolizing his own personage and identity shows the Aquarian transparency activated from the enormous force of all those Aquarian planets (see above on the left Circled in RED) triggering revolutionary networks and technology and bio-medical engineering, and the most unbelievable arrangements, projects, industry he was involved in – revealing personally, his world and how he saw himself steering the future of a select few of the most eccentric within humanity....(Aquarius loves HUMANITY...) It's monstrous. The ultimate perversion of Aquarian, is an aberration, he was an aberration. The anti-Aquarian man.

So, we could say, all these planets in Aquarius, ***beginning with Pluto in 2023***, started the unveiling of all of it – leading up to the grouping of Aquarian planets joining Pluto, on his Sun, and Node, then culminating with the Full Moon on his nodes exact on February 1. Humanity needed to see, experience and be aware of all these activities. You need to go beyond the trafficking alone – that is horrible enough, but go beyond and learn what else he was doing.

Full Moon February 1 2026

The role Uranus is playing, circled in Violet at the top, is that it is in a very sharp and sudden pressure, a square to the Sun and the Moon and all the other Aquarian planets – this causes eruptions, an earthquake of themes, information, geo-physical events, among many other erratic electric change going on which are abnormal, social themes erupting

In the Part 1 2026 Stardrops released on January 10, we were mainly tracking this Full Moon of Dec 4, Jan 3, and February 1, in relation to Venezuela and Columbia, as I spent quite a bit of time, reviewing what had happened there. I carried it over to the Full Moon in February 1, and all the events especially how Columbia then would be impacted by these two Full Moons. *you can find this article on the Home Page, or in the Library tab at the top of the website.

Little did we know, this extraordinary event was going to steal the stage of an already dramatic start for 2026!

If you want to review that Stardrops, the link is [HERE](#)

The main subject of that Stardrops was about Venezuela and Columbia, and I regret not posting about other global events at

that time which led up to February 1. Many private conversations were ongoing here discussing some form of unexpected revelation or shocking situations about to erupt.

We could go into nations' charts, the U.S. Natal and Conceptional – which I might do at a later time regarding the revelations erupting – however, the one theme I keep bringing us back to, is the major disruption of the fallen culture in the US natal Venus in the 9th being squared by transiting Pluto.

Pluto in Aquarius square U.S. Natal Venus in the 9th house, dismantling a fallen culture.

The 9th house Venus, in this astrological cycle, would be describing a false culture, we call it a pleasure cult of art, music, a belief system held by many, a fallen elite value system– lack of morality, in the U.S. 9th house. Fallen societies – fallen orders, debased and demonic cults would definitely fall into the 9th house – all lead to the death, dismantling and exposure of these activities...Pluto square began 2024-December 2026, dismantling and purging this world. (This is NOT what the original meaning of the U.S. Venus is about)

Again, Plutos' influence in Aquarius- transparency and change, square the U.S. Natal Venus, from 2024 – January 2026, once in 248 years – ripping open the activities of these fallen Venus values and how these types see humanity.

There is a higher and lower nature in every planet – depending upon the person, the activity etc...we can see how each planet behaves in our charts.

Venus in U.S. 9th house, possessed the highest Venusian ideals, beauty, ethics, the potential for integrating Venusian medicine, science, technology, social awareness and systems, financial opportunities, universities, love and values in the world....etc..etc.. The lowest would be the worst you could imagine – the degradation of those values. The 9th house represents culture and many lofty aspirations, but specifically a belief system. This is why religion, philosophy marketing and promoting a belief or trend falls in the 9th house of any chart.

The 9th house also has the ability to influence trends in society, such as politics, music, movies etc...

It is suppose to uphold morality, boundaries, standards , holding a standard – U.S. Venus natal squares Uranus in the 11th, and opposes Hades in the 3rd house.

These would be a record of Atlantean fallen values, (or other karmic challenges brought from past civilizations) negatively influencing society, a type of foreign values and cultural themes brought back into the U.S. As the return of the Atlantean people – as a karmic challenge to finally uncover, route out and resolve what took down Atlantis.

Pluto in Aquarius, from 2023 – 2026, took it down.

JE Sun at 0° Aquarius, squares the U.S. Venus at 2° Taurus, the planet of social standards and morality, the glue which was to bind people to a higher culture....which meant debased public influencers, and JE's very presence because of all the other energies in his natal chart together – challenged undermined and used the innocence of this Venus, for national and foreign subterfuge...moving against – it's such a mess. Was JE and all his thousands of reincarnated Fallen Atlantean friends, come back again to pick up where they left off and just do what they do...?

Pluto began to aspect the U.S. Venus in a square (90° Angle) – past Starfires articles on Pluto square U.S. Venus, [HERE](#) mid thru the article...

Services Library Treasures Mastery Appointments Contact IT

The transit of Pluto at 2° Aquarius square the U.S. Natal 1789 Venus in Taurus.

Dates
February 2025 – December 30, 2026

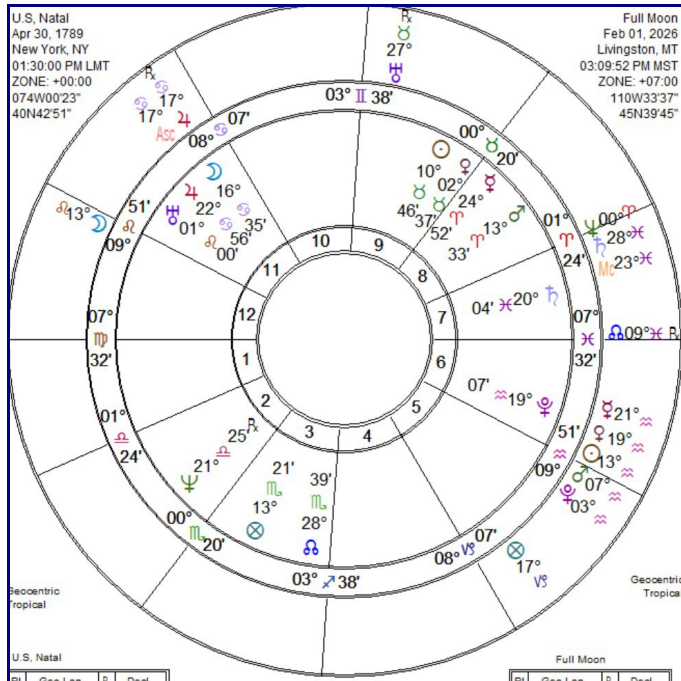

Description

A once in 248 years of challenging transitions with Venus in Taurus issues – unethical people and social systems which are hypocritical issue with major transitions involving our money, currency, value of our money, laws or lack of compliance, new laws or ethical moral issues and standards regarding the Federal Reserve, banking, and other legal systems (Venus in the 9th house). The end of engaging, investing in an old social group and their system. This astrology cycle ends situations permanently. It is a death and ending of a social group, a consciousness which is no longer serving the people in America.

All 9th house issues, such as cultural media, social media, social services, also cultural activities involving art, music, videos, internet information cultures where records receive seed out wisdom. Further consciousness expanding their minds.

..... and this transiting Pluto conjoin JE Sun at the same timeto me, this is amazing.

The debased Culture began to be exposed....Pluto activated a purge - and the unraveling of these lifestyles, began to really unfold, 2024-2025 See U.S. Chart below.

Transiting Pluto on the lower bottom outer rim - in the U.S. 5th house, 0-3° Aquarius, square U.S. Venus in the 9th house at 2° Taurus.

Many public figures began going down 2023-2024 – 2025 and personally, I was aware of many expose's, documentaries and conversations bringing these subjects out as were many of you also. This definitely is the coup de grace of Pluto cycles.

The Downside of Aquarius

The downside of Aquarius – and The Age of Aquarius which we are entering fully – needs to be brought up and especially the planet Pluto in Aquarius from 2023 – 2041. As I am presenting this information, the February 17 Solar Eclipse in Aquarius, and five planets, Sun/Solar Eclipse, Mars, Venus, Mercury Sun and Pluto, all in Aquarius is in a dynamic Aquarian exposure and confrontational mode, now up through February 28. (last planet, Mars, in Aquarius ends February 28).

All these planets, especially, Pluto and the Solar Eclipse, triggers the exposure... and draws out all sorts of perversions of Aquarian themes involving elites, anti – humanity groups, revolutionary destructive communities and a particular type of insane society – this would be the negative behavior of Aquarius – *the Anti-Light Race of Creatures exposed*, the exact opposite of what true Aquarian aspires towards.

True Aquarians aspires towards impersonal improvement upon existing situations, things which need progress, uplifting and fixing...it is all about evolved science, love, alchemy, global progress, a harmonious unity of people with like minded concern for upgrading of self and society – The negative, concentrates upon networking among the aberrations, the bizarre, unthinkable and dark extreme experiences which push a person to activities where there is the breaking of all boundaries of decency. Shock Value. It seeks anti everything, and lives for the shock. The Negative Aquarius energy causes alienation, trauma, anxiety, mind bending ideas, scenarios, increases separation, and all anti=activities.... anti-groups and anti-communities which are anti-Aquarian Age within humanity – It messes with the human mind, emotions and body – devoid of heart, devoid of a heart flame which can access the Spirit for **ultimate freedom**.... (Aquarius symbol is the human being pouring out the advanced WAVES (water) of Transformational Alchemy for mankind). Aquarius' pure archetype is Francis Bacon and Saint Germain, and its Key Phrase is God Love. I know that may sound simplistic, but every zodiac sign has a quality behind it, and each one is uniquely powerful, meaningful - Aquarius' is LOVE, out of all the other qualities of energy.

The perversion pushes a Hatred for true soul Freedom and instills either Communism, Socialism, hatred for divine advancement, anti- Divine Brotherhood, for this dimension to mirror that which is above.

Remember, the difference between Aquarian misuse and any other zodiac sign's perversion, is that Aquarius has a shock value, and a networking ability to draw to it all those who are of like mind in their deformity of behavior – its the Anti- Divine Community of Love – it's about the anti- humanity – the anti- oneness of progress of souls towards higher vibration and liberation. You see?

The Positive Aquarius

On the positive side, Pluto in Aquarius, five planets January/February in Aquarius, the Solar Eclipse in Aquarius, can also support everything advanced, transparent and put pressure on for positive change. It targets and exposes those who have been living an alternate reality, an alternate existence, away from the every day run of the mill society – These planetary positions, have enough power released to Earth, to purge and draw out truth and transparency –it exposes suddenly, out of the blue.

Also, in addition to all the above, remember in our 2026 overview, we have entered transiting Pluto trine transiting Uranus, sextile transiting Neptune and Saturn, the major planetary powers, all supporting a positive revolutionary acceleration for humanity at this time, 2026 – 2028.

Aquarius energy in a sense can draw out all forms of individuals who believe that they possess the capacity, the intelligence to hack the matrix, using the technology, science, and metaphysical occult inter-dimensional powers, to outlive and outsmart karma and the Universes' laws of love, and instead to create sub-culture, sub-societies to their own liking and agenda with all forms of distortions of the human race.

Anti- Aquarius themes include, soulless things, Mechanized people, hybrid/robotic/simulated/biological beings infiltrating humanity and influencing social trends, with their lack of soul and inability to access the divine realm of inspiration and love. These subjects will be drawn out in 2026.

A lack of love, a lack of humanity – projecting a false cause, a false investing in a pseudo humanity of some kind -

Attempting to transform the planet into something 2 dimensional....basically, a hell. (at least for us)

The exposure of inter-dimensional interference with humanity - Archonic, Watchers, digital mentally superior presences without a God flame, attempting forever, to manipulate every aspect of our world, including attempts at interfacing and influencing peoples' feelings, thoughts etc... the negative use of black magicians, and potentially, the AI, emotional projections, mind and nervous system, endocrine and social manipulated situations, in the human body and brain.

Would this Aquarian theme bring about the exposure, and transparency as to what is also going on, on the physical planets of our solar system, beginning with the weirdness and theories regarding the Moon and Saturn for starters? Why have I always believed, much of this emotional manipulation of mankind is coming from the Moon? Is there something going on with the lower levels of these planets (Pluto included) which could have some deleterious influence over humanities' psyche?

These are the dangers of the lower vibrational false hierarchy of the planets, the false hierarchy of Aquarius, and the Aquarian Age. This is all so much to take in I understand, and trust me, it's not like I'm sitting around pondering these things all day – but to be aware of the source of some aberration of behaviors within the world, my mind does go back to its potential source in our solar system and beyond.

How do we move these energies away from us and their influence, and amplify the positive of Aquarius?

AFFIRMATION

"I AM quickly demanding and commanding the Divine Angelic Beings to protect, defend, shield me, while repelling all unnatural destructive forces now. Free and shield my mind, nervous system, my feelings and inspirations, only allowing the pure Light of Inspiration enter into this world."

Every time the planet Pluto has moved into a new zodiac sign in the past, which is approximately a 11-18 year cycle or more, as it moves from sign to sign, I could see the positive potential released

throughout its transit - and also see the degradation the anti-sign unfolding through key public figures, politicians, and their behaviors, making their absence of morality in a particular way, the New Norm in society.

Once it embeds into the psyche of the people, it is very difficult to reverse it –the people forget what the previous standard was.

I don't see Pluto as a tiny insignificant little planetoid at the end of our known solar system – I don't know what it is, some say it isn't a planet at all, but a space station. Some say it contains computers similar to our MOON,...all I know, is when Pluto aligns itself in a person's birth chart, making particular aspects to one of their houses and/or planets, it is major. It actually is one of the strongest influences in a persons' cycles at that time, and one is inevitably changed in some fashion in some area of their life, forever. It can be incredibly favorable, such as in a trine (120 degree angle) or sextile (60 degree aspect). ...or be quite challenging as in a conjunction, square, inconjunct or opposition.

This is why I emphasized the meaning of Pluto crossing over in a conjunction, to JE Sun...it is major. Do you see?

So, back to Pluto in Aquarius – we have a responsibility as awakened people, to project good will onto the field, for the positive energies of Aquarius to take hold. It's up to us now to replace the Anti-Aquarian culture which is now going down, with a magical future! We're laying down the higher Aquarian foundation.

Here is a table for the Grouping of Aquarian Planets end of January 17th with the start of all five planets moving through Aquarius, up through March 1, 2026, square Uranus in Taurus, *especially between **February 1 – February 28** (see table below) Just so you can have a visual of how many planets were lined up in Aquarius and, they were intensified by the Uranus, square, which is the natural ruler of Aquarius. Uranus acted as a trigger.

Where to find this trend happening in your own personal life.

If you can discover the zodiac sign Aquarius on the outer rim of your personal natal chart, this is where your own personal revolution and acceleration has been occurring and will continue for the next few months. This is especially because of the Solar Eclipse in Aquarius.

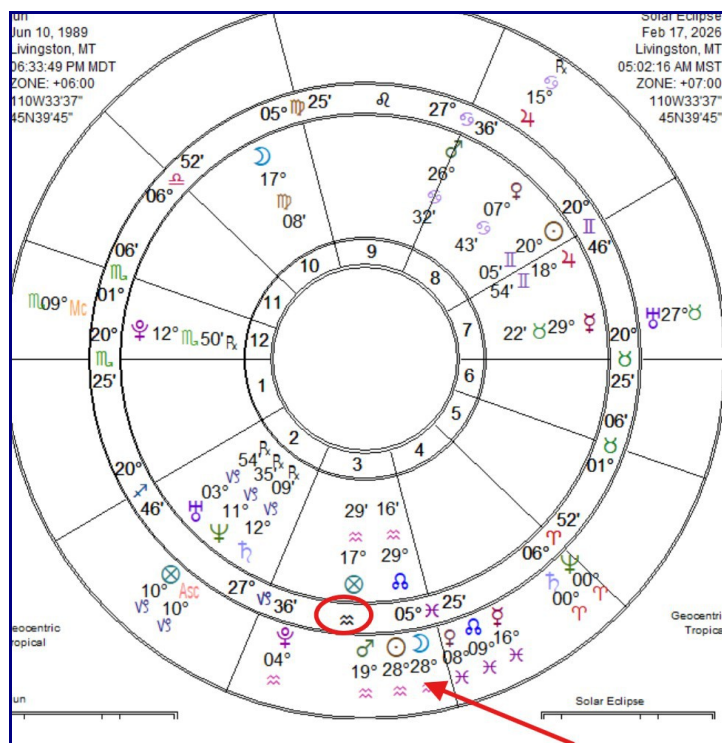

Note this chart has Aquarius sitting on the 6th house cusp - (the cusp between house #5, and #6). That means, we place all those Aquarian planets around the outer rim of the 5th/6th houses, mainly the 6th house.... The February 17th Solar Eclipse at 28° Aquarius, will absolutely fall in the 6th house of this natal chart activating change, acceleration, aligning one towards important progress in one's life.

So...with this particular placement above, this stimulates and inspires, an upgrade and positive changes for the person in their every day routines, order in their lives, health, environment, their schedule working their schedule smarter, their job – elevating their tools for their work, how they work, the software or upgrades they need for their projects – etc...It could cause a person to work on their mental and emotional health, the routines they need to upgrade into in order to improve.

Because we know, Uranus is also in a conflict with these Aquarian planets, and especially the Solar Eclipse, (from mid January up through February 28) this person would be experiencing throughout this entire time, an urge to be free (Very Aquarian) from restrictions, old routines, health issues, and other routine every day tasks which are boring, outgrown, etc...they want change in these areas... and Uranus might also be part of unexpected set backs, or one might feel resistance to this upgrade. One could experience interruption by unexpected issues. It might also create anxiety – as one of the downfalls of Aquarius is negativity of one's mood or mental outlook.

How to find Aquarius on your wheel

Take your birth chart – ([erect for free, HERE](#)) .. find the Aquarian symbol on the outer rim of your wheel.

Whatever house has Aquarius on the outer rim of the wheel, that area or environment in your life will be activated.

Definitions of the houses are [here >](#)

Again, wherever you find your Aquarius, that area of your life has been and will go through an upgrade in some way!

You can do this for every planet in the solar system. Once you master this ability, it's fun to chart how your cycles are helping you grow, and also revealing where and how life can suddenly feel so uniquely different, better or challenging.

So, these are my thoughts about January/February 2026, and this entire thing is so psychologically challenging which is erupting, I will recommend watching my YTube Video on the incredible changes coming our way throughout 2026. [HERE](#) – (The Architecture of a New World). It would be a good addition to this information. Remember, we're walking on a pathway of light, and the world all around us is shifting.

Thank you once again, for your determination, getting through this post. Have an incredible February!!

Christine
